WATKINS'
GENERAL RETAIL
CATALOGUE
OF
Seeds, Trees, and Plants.

Oriole Strawberry

S. L. WATKINS,
GRIZZLY FLATS, CALIFORNIA.

REPUBLICAN PRINT, PLACERVILLE.
INTRODUCTION.

The list of berry plants we offer is the most complete list of any dealer in America. As our trade is not confined to any one State, we grow varieties that succeed anywhere, hence the great number offered. No matter where you live, we can safely deliver you plants, charges prepaid. Distance counts for nothing except at the following prices, every year there is a demand for every State in the Union large quantities of berry plants, also to many places in Canada.

Our foreign trade is beginning to grow considerably, and we begin to find buyers for the many varieties grown in this country, and are successful introducers of such. Persons having novelties of merit will find it to their interest to correspond with us.

OUR SHIPPING SEASON for berry plants commences in September and ends in May.

TERMS OF BUSINESS.

TERMS CASH, except by special agreement otherwise.

HOW TO REMIT.

In remitting, we suggest the use of express money-orders, which should be made payable at Placerville, Cal.; or postoffice money-orders payable at Placerville, Cal.; or by draft on New York or San Francisco. Registered letters to Grizzly Flats, Cal., our postoffice address.

GUARANTEE.

We recognize that upon our customers receiving satisfaction depends our future prosperity, therefore the greatest care and caution is used to have everything true to name, and to offer nothing but the finest grown plants, trees, bulbs, seeds, etc. If in any case, through accident or mistake, a plant, tree, bulb or seed proves untrue to label, we cannot be held responsible for any sum greater than the original cost of the plant, tree, seed or bulb, as the case may be; but if mistakes do occur, we will furnish new plants, seeds, trees, bulbs, etc., free of cost, to all persons, or return their money. We believe this to be a fair agreement to all concerned.

All plants by the dozen and 100 rates are delivered at the following prices, charges prepaid to any postoffice in the United States or Canada. If 1000 plants are wanted by mail, $1.50 must be added extra, to prepaid postage. Beginners had better leave the selection of varieties to us, as we will send only those which we believe would do well with them. Our extensive correspondence with berry-growers all over the country enables us to determine at once the varieties that are best for a given section of country.

STRAWBERRIES.

The strawberry we consider the most profitable fruit that can be grown, provided the right varieties for the locality are chosen. There are thousands of small towns and villages throughout the United States where the local market is not one-half supplied. This is a great opening for thousands of persons to embark in a very profitable business. Also, the city markets are always demanding large first-class fruit, especially in the berry line. In maintaining a high price, and always give big measure; never market poor, inferior fruit; all such should be thrown away. But if you grow good, desirable varieties, you will have little inferior fruit to throw out. Strawberries can be successfully grown in any soil where a crop of corn or potatoes may be grown. We can offer the most desirable strawberry plow deep, but before plowing give the ground a good covering of stable manure, which is the very best fertilizer known for berries; afterwards, harrow up very fine. Rows for field culture may be laid out 5 feet apart, and the plants set in rows 1 foot apart; for market culture, rows can be 3 feet apart, and plants set 1 foot apart in the rows. Many varieties of strawberries are destitute of stamens. These are termed pistillate sorts, or impotent flowering kinds. All varieties marked (P) are pistillate, all marked (S) are staminate. Strawberry plants can be safely set from September 1st until May 1st—of course, in cold localities, late spring planting is preferable.

PART No. 1.

Standard Varieties of Strawberries.

All this list we highly recommend as they have been tested far and wide. We have a heavy stock of all these sorts.

Charges prepaid on all strawberry plants by the dozen and hundred rates.

THE MEXICAN OR ARIZONA (S). A berry of surprising melih, wondrous beauty and luxuriant plant growth, is the Mexican strawberry. It is a rapid and beautiful grower, with clean, healthy foliage of a dark green color. The young plants of this variety need no potting, but take hold and grow rapidly. Generally these young plants perfect a fine crop the first season. A strange peculiarity of the Mexican strawberry is that it will yield fruit for five or six years without renewing, when planted in a cold greenhouse, or four crops with other varieties. It gives heavy crops all through the season; in warm climates it yields two crops a season. The berries are large for the variety, and distinguished by a fine bloom, sweet and juicy. It is very hardy, fruits in one season, three, and even four quarts. The plant itself is almost faultless, retaining a height of about sixteen inches, with dense, spreading dark green leaves, which greatly protect the blossoms from frost. Last year the cold weather destroyed nine-tenths of the flowers.
on other plants, but the Mexican pulled through in splendid shape and gave an enormous crop. The fruit is slightly conical in shape and is brilliantly colored with a fine luster and a lustrous, lustrous, aromatic and altogether delicious. It is a wonderful market berry.

Price 35 cts. per dozen; $1.50 per 100; $6.50 per 1000.

THE DOLLAR STRAWBERRY (S). This variety is considered the best shipping variety in the world; the fruit is so firm, and stands travel so well, that it always has the most attractive appearance when opened up for market. More money is realized from this sort in California as a shipping berry, than from any other sort; in ripeness it is quitecarte, and as it can be large, generally conical in shape; and of a lustrous glistening red in color, while the flesh is decidedly spicy and aromatic; the plant is a beautiful ornement, is very productive, and if not excelling, the famous old Sharpless in this respect; the leaves are very large, footed, purplish, green in color, and quite free from rust, or other leaf diseases. A remarkable peculiarity of the Dollar berry is that the young runners give a heavy crop of very large, firm, and heavy berries the more being rooted; the spring crop is generally enormous, all berries averaging large. In market, the fruit sets. It is superior to the others on this account of its magnificent appearance. In many sections of California, there are large areas set to the Dollar berry. It is true that there are many superb shipping sorts, but the Dollar berry leads all others; being early is quite a valuable feature, as the early fruit always commands the best price.

Price 25 cts. per dozen; $1.00 per 100; $6.00 per 1000.

SAUNDERS (S). The Saunders strawberries are, we believe, the nearest approach to the frost-proof strawberry of anything that we have ever tested; we have fruit of it now five years and we always have a good crop. In localities where the strawberry is quite often killed by frosts we would recommend a trial of this variety. The fruit is a polished red, very firm and perfect. It has an intense flavor and is very large in size, while the flavor is of a very rich acid, not too sour, but just right.

Price 25 cts. per dozen; $1.00 per 100; $6.00 per 1000.

HOOD RIVER (S). (Clark’s Seedling.) A very marvellous variety in all respects. It is of large size, as round as a marble, and of deep, brilliant red. For richness and high flavor it cannot be equalled. It is also very firm and perfect, and it ripens with Mitchell’s Early; it cannot be picked when white and shipped to New York, and it will come out a waxy crimson, dotted with golden seeds. This variety is extremely productive, and ripens with Mitchell’s Early. It took a premium at the World’s Columbian Exposition for Chicago for its wonderful beauty and exquisite qualities.

Per dozen, 25c; 75c per 100; $5 per 1000.

MARSHALL (S). The coming big berry for the North, South, East and West. The fruit is so large that fourteen good specimens fill a bale. It is a most brilliant red, and has a flavor equal to that of the strawber- ries, being rich, sweet, aromatic and delicious. So strongly is this wild strawberry flavor marked that it is supposed by the originator to have originated directly from a wild field strawberry. In productiveness it ranks high. These berries are very firm. An extensive berry-grower in Delaware speaks thus of the Marshall: “We have never seen any berry equaling them in appearance; superb color, fine flavor, perfect shape make us feel that no artist could produce who had never seen this berry, and yet one that will be recognized once as an ideal representative of the most beautiful of all fruits, the strawberry.”

Price 35 cents per dozen; $1.80 per hundred; $6.50 per 1000.

THE AUSTRALIAN CRIMSON. One of the best for a hot climate. It is very extensively grown in Los Angeles county, Cal., and in many other counties in the State. Its main fruiting activity begins in March, and continues through April, May, June and July; large crops are also harvested in January. Provided there is not too much rainy weather. Being so very early, and so extremely late, it is one of the most profitable varieties to grow in a warm climate. It is the most excellent of the large crimson berries and the fruit averages very large, is of a brilliant crimson color, and most deliciously flavored. The demand for plants of this variety is very great.

Per doz., 25c; 75c per 100; $1.75 per 1000.

THE HAVERLAND (P). The following description is from our last year’s catalogue. This season the Mexican went far ahead of it but nevertheless the Haverland is a wonderful fruit.

HAVENLAND (P). We consider this as near perfection as has ever yet been attained in a strawberry. A great, rank, vigorous grower, the leaves are immense in size, and the fruit colored a lustrous, sparkling red. The berries are long and conical in shape, and just lie in piles around the plant. The flavor is simply grand; the fruit is full, rich, sweet, and all the shipping qualities possess a delightful aroma. The Haverland excels all others that we have yet tested for profit, yielding two heavy crops in a season, the crop in September being very large; the most productive in all of our great collection; a pialisiate variety and can be fertilized by Iowa Beauty, Woolerton, or Mexican.

Price 25 cts. per dozen; $1.00 per 100; $5.00 per 1000.

BRANDYWINE. “This is one of the most valuable varieties yet introduced. It has the single defect that I know of. The plant is a luxuriant grower, healthy and hardy, and very productive. Blossom perfect. Fruit very large, of good form, bright red all over, and of good quality. Season, medium to very late. It succeeds on any soil.”—Crawford.

This is a marvelous variety in the warmer sections of California. These plants are being called for by the hundreds of thousands.

Price 25 cts. per dozen; $1.00 per 100; $6.00 per 1000.

MEEK’S EARLY (S). This is acknowledged to be one of the best ever introduced. We welcome such, for there is abundant room for very early varieties of strawberries. As early or earlier than Hoffman’s or Michel’s Early; one of the most productive. Meek’s Early is said to produce all these good properties and to be almost as fine as Hoffman. Plant is a large thrifty grower, with clean, bright foliage. It is of good size, larger than Hoffman or Michel’s Early, firm and good in quality. We recommend it to those seeking an extra early variety.

Per dozen, 25c; $1 per 100; $5 per 1000.

PARKER EARLE (S). This ranks next to the Haverland. It is a vigorous, powerful grower. Its forms immense cold hardy fruit, is very large, long and conical, of a glowing, brilliant red, and covered with golden seeds. It is one of the most expensive berries. The flavor is superb, fruit very firm, and therefore a splendid shipper. Established plants of this sort will ripen $1.00 worth of fruit in one season. It is of course to perfect such a load of fruit the soil must be quite rich.

Price 35 cts. per 100; $1.00 per 1000; 86.00.

GANDY (S). We cannot begin to give this too much praise—the plant is faultless; a large, vigorous, healthy grower just productive enough to perfect its whole load of fruit; the berries are of a deep, glistening
red; the flavor strongly suggestive of straw-
berries, with none of the harsh flavor which is the
largest, and we believe this sort will per-
fec t more large berries than any other sort
known at the present day. This is a most
successful berry, and a most profitable
fruit, having the additional advantage of shed-
ing the husk, at once, when they are picked. The
plants are fine plants, very healthy, and we have
never seen them fail to produce, on all soils. This
plant is claimed to be identical with the old Mt.
Vernon; we shall soon know, as we now have both
varieties to grow it, and compare the results.

Per dozen, 25c; 75c per 100; $1 per 1000.

SHUCKLESS (S.) Just the berry to grow
near canneries; of good size, a great yielder
and a most profitable berry, with additional
profitable or sweet fruit, and a high-grade
plant, it is certain, for all purposes, and
very rich soil.

Per dozen, 25c; 75c per 100; $1.50 per 1000.

TRIOMPHE DE GAND. Grown extensively
in the Sacramento Valley, and shipped by the
outdoor to New York city and other Eastern
points; is one of a brilliant glossy red color,
and is entirely free from rust. The fruit is quite
large, round in shape, of a glistening red color, and
of most excellent quality; the plants are very
healthy and of a rich, vivid green, and en-
tirely free from rust. The fruit is quite large,
and is of a brilliant color.

Our stock of this

Per dozen, 25c; 75c per 100; $1.50 per 1000.

LONGWORTH'S PROLIFIC (S). Our first
experiment with this sort was very unsatis-
factory, as the foliage rusted so bad that the
fruit was all burned up by the sun. Believ-
ing that we did not have the genuine variety,
we purchased a lot of plants from a friend in
Santa Barbara county, Cal., and these turned out
magnificent; the flowers being very
fine, healthy and of a rich, vivid green, and en-
tirely free from rust. The fruit is quite large,
and is of a brilliant color.

Our stock of this

Per dozen, 25c; 75c per 100; $1.50 per 1000.

LOVET'S EARLY (S.) "A choice seeding
from Kentucky, the home of Charles Down-
ening, Kentucky, and Downer's Prolific straw-
berries. From its history and growth of the
plant it is believed to be a cross between the
Chief and Wilson. It is of excellent conju-
tural form, exceptionally uniform in size and
shape all the season; is of superior quality and
decided merit; color, bright crimson; per-
duced berries absolutely perfect for flavor,
vigor and habit. It has for several years
been subjected to the severest tests, both in
Kentucky and New Jersey, and has yet to
manifest the least defect. Its season is
medium early, and it has proven itself very
profitable for market or garden culture.

Per dozen, 25c; 75c per 100; $1.50 per 1000.

BACK (S.) Old favorite; large, round berries of a high, rich flavor, splendid
canning or shipping.

Per dozen, 25c; 75c per 100; $1 per 1000.

TIMBRELL (P.) A strange type of berry,
very large, red, and of a sweet and charming flavor; it ripens after
Gandy, is of enormous size and is very pro-
ductive; it will be widely cultivated in the
West on account of its lateness.

Per dozen, 25c; 75c per 100; $1 per 1000.

OREGON EVERBEARING. Per 12, 25 cts;
per 100, $1.

SHARPLESS (S.) "As large as the in-
genius of man has yet produced, and with
high manuring and culture the most pro-
fitable. Where a striking berry of mammoth size and perfection is un-
likely or on fancy market, plant the Sharpless. Select rich garden soil, plow in plenty of ashes, set
Sharpless plants; give them clean culture, tend them anxious attention, you will have large,
rich, glossy red, of a sweet and charming flavor; it ripens after
Gandy, is of enormous size and is very pro-
ductive; it will be widely cultivated in the
West on account of its lateness.

Per dozen, 25c; 75c per 100; $1 per 1000.

CUMBERLAND TRIOMPHE (S.) "A mag-
nificent variety; berries large, no small ones,
fine, perfect form and of fine flavor; beauti-
ful bright crimson color; excellent shipping
berry, and is growing in general favor; no one ever

Per dozen, 25c; 75c per 100; $1 per 1000.

CLOUD'S SEEDLING (P). Here we have
something grand; a most magnificent berry
for California soil and climate; a rampant
grower, like the Crescent; a tremendous
fruiter; berries large, glossy red; flavor very
tart; celebrated for its wonderful shipping
qualities. It should be fertilized by some

Per dozen, 25c; 75c per 100; $1 per 1000.

CUMBERLAND TRIOMPHE (S.) "A mag-
nificent variety; berries large, no small ones,
fine, perfect form and of fine flavor; beauti-
ful bright crimson color; excellent shipping
berry, and is growing in general favor; no one ever

Per dozen, 25c; 75c per 100; $1 per 1000.
with a firmness without equal among berries of its large size. Calyx large and showy, and a strong staminate of productive habit and of robust, healthy growth. In foliage and growth of plants this variety strongly reminds us of Greenville (it would take a decided expert to tell them apart when growing; its fruit also resembles the Greenville in size and in quantity, though more regular and less pointed, with a season a full week earlier—about one picking ahead of Dayton. Nearer perfection, says Mr. Kerr, than any other variety in existence. "Ideal," says the pomologist, and he has hit the mark exactly.

Per dozen, 30c; $1.00 per 100; $6.00 per 1000.

BUBACH (P.). "This is one of the very best in every respect. No unfavorable reports from anywhere. The foliage is very large, dark green and healthy; growth strong and vigorous, producing plants plentifully. The fruit is of very uniform, large size, fine form, bright crimson color, ripening all over at once, of excellent quality; begins to ripen with the Crescent, but continues a long time in bearing; very productive, holds its size well to the last picking. No one should fail to plant some of the Bubach."

Per dozen, 25c; 75c per 100; $1.75 per 1000.

PRINCESS (P.). A berry of great and extraordinary merit, a marvellous fruiter, and has been known to yield 45,560 quarts to the acre; fruit very large, of a brilliant red, with a lustre like glass, and has prominent, showy, golden seeds; the flavor is rich and quite sweet; for garden or field culture this will surely please.

Per dozen, 25c; 75c per 100; $1.50 per 1000.

ORIOLE (P.) "No. 15." This is an extra early berry, ripening only two or three days behind Michel's Early, which leads the strawberry season. It is also a large berry, the average measurement being an inch and a quarter across the berry and four inches around; no immense, overgrown, specimens, and almost no small or unshapely berries among them. It is also a very productive variety, second to none in yield, and this, together with its beautiful, deep red color, with bright-colored seeds standing well out on the surface, and its firm, dark red flesh, with a rich, aromatic flavor distinctly its own, makes this the most desirable berry for its money value in market that we have ever seen. Blossom imperfect, with some stamens partially developed. It has not fruited apart from staminate sorts, but its great productivity indicates to us that it is imperfect, as it is among this class that all the heavy bearers are found. No one at all interested in strawberries can afford to let this variety go another year untied.

Prof. Heiges, U. S. Pomologist, describes it thus: "No. 16. Not entirely staminate. It might produce a perfect crop of fruit, but would advise planting some strong staminate variety with it. Very productive, and shows very little injury from the weevil; prolongs its season of blooming and fruiting, a trait rendering it desirable for garden culture. Size large, flavor very similar to the Hautboy variety."

Per dozen, 25c; $1.00 per 100; $6.50 per 1000.

ENORMOUS. "This is my No. 132 which I grew from seed of Crescent. It is pistillate
and blooms so late that frost has not at any time injured its blossoms. It has borne seven crops of fruit from without a failure. I now name it as above for its great size and enormous productivity. It is a very large and beautiful deep scarlet berry, unsurpassed in quality. It possesses all the qualities of the EDGAR QUEEN, and is ten days later than that variety in getting ripe. Just as the EDGAR QUEENS are the best of all the berries in the world for beauty of the largest and most beautiful and the most delicately quality. The EDGAR QUEEN is the only variety that rivals it in productivity. The plant is a very strong and vigorous grower, leaves of a dark, glossy, green color. All in all is the most beautiful plant and valuable berry that I have ever known. It is the nearest approach to the ideal berry.—Originator.

Per dozen, 25c; $1 per 100; 50c per 1000.

CHILEAN (S). A strawberry of giant proportions. It is entirely different from all other varieties. It thrives in Village. The foliage is of a bushy, vigorous stock. The leaf stalks are margined with sterile leaves, and the fruit stalks stand higher than the foliage. The fruit is covered with a beautiful, scarlet, almost round, juicy, delicious, large, beautiful, firm, good, nutritious, and healthy. The season is later than Bur-uch No. 5; shape obtuse conical, never cox- combed, and is the heaviest berry I have han- dled; color, a rich, scarlet; very large, deep, coronary; and firm, good, flavor, and shipper; season medium to very late; size larger than Buruch No. 5; excelling Mary, Timbrell, H. W. Bucher, Hol- land, Shapley, and others.

Per dozen, 25c; $1.25 per 100.

BRUNETTE. New, dark red color, and good size; noted for its rich and sweet flavor.

Per dozen, 25c; $1 per 100.

WM. BELT. (S.) A rich, glossy red color; splendid quality, conical in shape, and quite firm; twelve berries to the quart; if you want to surprise your friends and yourself, too, raise this strawberry.

Per dozen, 25c; $1 per 100.

BARTON'S CARDINAL. When I say that this is another Havenstead, only earlier, and firmer than that famous variety, I have said a great deal, but no more than the truth. It is the parent of all the strawberries that are being grown in our region, and it is ten days earlier, equally as large and productive, vastly firmer, and of a fine, rich color. The vigor and vitality of the plant is wonderful, and it is the most delicious and free of diseases. On March 28th, my Barton field was in heavy bloom over-berried. The next day it was black as ink; every bloom and berry gone, and even the plants apparently dead. I would have taken a penny for the crop, plants thrown in. Great was my surprise, however, when they rapidly put new, beautiful, and bore a heavy crop of excellent berries, ripening even then with the earliest. Triumphant that heat and cold, wet and dry it is undoubtedly the general purpose berry of the future. With it a grower can defy drouth. It must supplant all others as a leading market berry.—Blacknell.

25c per dozen; $1 per 100; 50c per 1000.

LAFEYETTE. A hardy, nutritious strawberry seedling from British Queen, crossed with Helena Gloede. The fruit is very large, considered exceedingly in size, and of either parent, and is certainly the finest flavored and largest yet introduced. The flavor vinous, yet luscious, and quite equal to that of British Queen, but ripens for several days after it. Certificate of Merit, Royal Horticultural Society Fruit Conference, 7th July, 1891. 50 cents per dozen.

CARDINAL. A very distinct new second early variety with large and well-shaped broadly conical fruit of exquisite flavor, probably the sweetest strawberry yet raised. Flesh firm and creamy white in color, scarlet exter-

25c per dozen; $1.00 per 100; 50c per 1000.

WILSON'S ALBANY. 25c per dozen; 75c per dozen; $1 per 1000.

LADY THOMPSON. An enormous sized early berry, great shipper, dark brilliant red color and a sweet honeyed flavor.

Per dozen, 25c; $1.00 per 100; 50c per 1000.

COLUMBIAN. A famous variety from Mis-issippi. A rapid, beautiful grower, berry large size, a deep glowing red, flavor superb; as early as Mitchell's Early, very firm, ex- tremely productive; gives two crops a season in warm climates. 25c per dozen; $1 per 100; 50c per 1000.

BISMARK (S). The description herein given is by the originator. The Bismark is a seedling of No. 57, raised by B. F. Dieman; the plant resembles Bubach No. 5 in every way, but is more stocky and robust, with the same ironclad foliage. The berries are produced in enormous quantities, Bub- ach No. 5; shape obtuse conical, never cox- combed, and is the heaviest berry I ever han- dled; color, a rich, scarlet; very large, deep, coronary; and firm, good, flavor, and shipper; season medium to very late; size larger than Buruch No. 5; excelling Mary, Timbrell, H. W. Bucher, Hol- land, Shapley, and others.

Per dozen, 25c; $1.25 per 100.
PART NO. 2.

The strawberries in this list are very good for some locations. We only grow these in small quantities as the demand is not very great.

LADY RUSK (P.) Splendid for a hot climate; very early, an abundant yielder, berries large, sweet and fine; good shipper. Per dozen, 25c; 75c per 100; $5 per 100.

MIDDLEFIELD (S.) A fancy berry for a fancy market. Per dozen, 25c; 75c per 100; $5 per 100.

LEADER (S.) A very large, early berry; quite productive; of an intense, glistening red, and superb flavor. Per dozen, 25c; 75c per 100; $3.75 per 1000.

IOWA BEAUTY (S.) One of the sweetest, as well as the largest of the medium berries grown; very large size; exceedingly productive. Per dozen, 25c; 75c per 100; $4.50 per 1000.

WARFIELD NO. 2 (P.) The great Chicago market berry; medium size; a brilliant, dazzling red; rich, subacid flavor; very productive. Per dozen, 25c; 75c per 100; $6.00 per 1000.

LENNING’S WHITE (S.) A very rare and scarce creamy white variety, suitable only for the amateur; medium berries; but of the most exquisite flavor and highly perfumed musky aroma; color white, tinted with red when exposed to the sun and very showy on the table in contrast with dark or scarlet sorts; ripe in mid-season; plants vigorous, healthy growth, but a shy bearer, is in great demand wherever its delicious table qualities are known; a great addition to garden novelties, and should be in the hands of every thorough gardener. Per dozen, $1; $3 per 100.

SWINDELLE (S.) This is, indeed, a swindle, with us, as it is a very poor and inferior type. In the East, however, we hear good reports from the East, however, regarding it. Per dozen, 25 cents; 75 cents per 100.

POPLAR PROLIFIC (S.) Something very fine; the fruit averages quite large and ripens with the Wilson; it is a very firm and finely flavored variety, and is very beautifully colored. Per dozen, 30 cents; $1 per 100.

EARLY SCARLET (S.) One of the very early-ripening varieties. Per dozen, 25 cents; 75 cents per 100.

F. P. ROE (S.) We do not believe this will ever amount to much in this country. Per dozen, 25 cents; 75 cents per 100.

CHELSEA (S.) Noted for its wonderful productiveness, and its bright colored berries; succeeds on all soils and in all climates. Per dozen, 25c; 75c per 100; $3 per 1000.

DOWNER’S PROLIFIC (S.) A good yielder of large, round, light colored berries. Per dozen, $1 per 100.

GENERAL SHERMAN (S.) Fruit quite large and showy, and of excellent quality. Per dozen, 25c; 75c per 100;

GYPSY (S.) Remembres the old Wilson, but of a brighter color; very productive. Per dozen, 25c; $1 per 100.

GLOBE (S.) An old variety, but very fine; of the Sharpless type. Per dozen, 25c per dozen; 75c per 100.

GLENDALE (S.) A very old sort; quite acid; a splendid canning variety. Per dozen, 25c; 75c per 100.

GENERAL PUTNAM (P.) Very similar to Cumberland Triomphe. Per dozen, 25c; 75c per 100; 95 cents per 100.

HAYNE’S PROLIFIC (P.) 25 cents per dozen.

MINOR’S PROLIFIC (S.) Similar to the Chanticleer. A tall, but a larger and better colored berry. Per dozen; 75c per 100.

HOFMAN (S.) Nearly a failure in California, and it does not do well out of its home in Southern Atlantic States. Blacknall says: “This is the earliest of the early berries. It is one of the most beautiful berry that man or Nature has yet produced. More money has been made on it along the Atlantic seaboard in the past ten years than on all other varieties combined. If I was offered a prize for the crate of berries to show the finest and freshest after the long journey, I should not think of any variety but the Hoffman. It is shipped from Florida to Boston, arriving in perfect condition. Per dozen, 90 cents.

DEW (S.) Very similar to the Sharpless; a most wonderful keeper, and one of the very best. Branch says: “The most prolific as well as the most luscious of all fruits, is the Dew Strawberry. For size, sweetness, excellence of flavor and abundance of fruit, it is not surpassed by any berry in the world. Their culture has been successful everywhere. It is not uncommon to have a yield of 6000 quarts per acre. It is easy for any person possessing a farm or a garden, or even a spare corner of his yard in the city, to raise his own supply of Dew Strawberries, without the slightest surplus for the market.” Per dozen; $1.50 per 100; $10 per 1000.

PREFMONT. Seeding of Belmont; perfect blossoms, crisp, conical, good-sized fruits, quite productive. 25 cents per dozen.

TUBBS. This is a new variety from Anna, Aurora county, Md., and does not have to go abroad to find popularity, as in its native county where it is well and favorably known the tubbs is a very superior variety. We have considered the most fortunate grower. This berry is highly honored by having conferred upon him the name of its originator and introducer. Mr. John Tubbs is a born and honest old gentleman, whose kindly face will long be remembered by the writer who had the pleasure of enjoying hospitality for a few brief hours the past June, and sampling his famous Tubbs berries where he was picking 1000 quarts per acre at a single picking on rather thin, light soil. The berry is very productive of fruit above medium size, good form and color. Its carrying qualities, Mr. Tubbs says, are good. Time of ripening medium early.”—Allen.

$3 per dozen; $2.50 per 100.

FOUNTAIN. We have only tried this sort one season, and cannot therefore tell its behavior here. Mr. Brandt, the introducer, states: “Introdued by us and has become famous for its great size and beauty. It is really the largest and handsomest sort grown, the berries being perfect in shape, of the deepest rich ruby color, with a sparkling lustrous like glass. Ripens perfectly to the core and is exceedingly sweet and of a most luscious quality. This should satisfy the most exacting amateur, and can be had by a better grower. The fruit is very large and beautiful and produced in the greatest abundance.” Per dozen, $1; $5 per 100.

CRAWFORD. “In color, shape and size this is perhaps the most beautiful berry that ever glowed a living ruby in its setting of frosted white. It is not large; they say it must have high culture, but pray what variety must not? A superb garden berry.—
BLACKMILL. Per 12, 25 cents; per 100, 75 cents.

HANQUET. "A failure of the wild field strawberry—one of the best of the large cultivated varieties; it combines size and productiveness with the delicious flavor of the wild strawberry."

This does very poorly with us and we cannot recommend it; it may prove of great value in other sections, however.

Per dozen, 50c; per 100, $2.50.

ARROW. A berry similar to Warfield, but the plant is of the Gandy type; the fruit will remain on the vine several days after ripening and drying up; very productive, good size, superior flavor; a new variety.

Per dozen, 50c; per 100, $3.50.

ARKANSAS TRAVELER (S). We were very far from expecting such a beautiful growth made by this berry this year; it has not fruited with us yet; it is sent out by George Michel, the man who originated the Michel Early.

Per dozen, 50c; per 100, $2.50; $5.15 per 1000.

WHITNEY (S). A giant berry, but its rich sweet flavoring is its leading feature. It is very productive, and the berries are wedge-shaped, of a glossy, crimson color; quite attractive, either on the vines or in the boxes; it ripens from July 20th to September 10th by a man in the State of Washington, by the name of Whitney, for the Jessie Strawberry, but it is not the Jessie, and to distinguish it from the others, we called it the Whitney Strawberry.

Per dozen, 3c; $1 per 100; $1.50 per 1000.

PLUSH. We believe nobody will ever regret planting this choice sort. The fruit is of immense size; a glossy and lustrous red color, and is produced in the greatest abundance.

75 cents per dozen.

WESTON. (New). Very similar to the Grenville, but a better shipper.

Per dozen, 25c; per 100, 75c.

WEST LAWN A very late variety; fine, beautiful berries.

Per dozen, 25c; 75c per 100; $1.50 per 1000.

WESTBROOK (P). A valuable early berry, and a long-distance shipper.

Per dozen 3c; $1.25 per 100; $7.50 per 1000.

WELLER (New). Large, fine and productive.

$1 per dozen.

PARIS KING. Said to be one of the best fertilizers for "Bubach No. 6." "Enormous," et cetera, are its attributes recommended and will no doubt prove of great value.

Per dozen, 75 cents.

ROYAL. This seedling has done well with us and we say that a fault of things of it: one of Mr. J. H. Hayne's choice sorts; said to be of wonderful proportions.

Per dozen, 25c; 75c per 100; $3.50 per 1000.

CINDERELLA (S). A very choice sort for low lands; very large conical berries, brilliantly colored and highly flavored; a splendid keeper.

30 cents per dozen; $1 per 100.

CHARLES DOWNING (S). This does very poorly with us; for heavy soils it is highly recommended.

Per dozen, 25c; 75c per 100; $2 per 1000.

CHIEF'S FAVORITE (S). Choice; of great merit.

Per dozen, 3c; per 100, 81c.

ORANGE COUNTY (P). "It is as early as the Crescent; plant resembles Sharpless in strong healthy growth, very large and showy, a large, firm, dark red, and a bright red. It will double the Sharpless in yield of fruit."—H. S. Timbrell, the introducer.

25 cents per dozen; 75c per 100; $1 per 1000.

MAY KING (S). A very choice sort; productive, large, fine colored, and one of the best shippers known; stock limited; a marvelous variety for the South and California.

25 cents per dozen.

MRS. CLEVELAND (P). A very choice sort for home use. The fruit is very large, bright red, and productive, the flavor and rich. Should be fertilized by Woolverton.

Per dozen 25 cents; 75 cents per 100.

MONARCH OF THE WEST (S). One of the largest berries from the Pacific Coast. The berries grow as large as a hen's egg, pale red in color, and of a most excellent flavor; very productive.

36c per dozen; 75c per 100; $8 per 1000.

MAY KING (S). "A seedling of the Crescent, which it strongly resembles both in fruit and flavor; an extraordinarily productive; berry of the size and form of its parent, of the same clear, bright scarlet, with added firmness and earlier than its parent in ripening, which alone makes it extremely valuable. It differs in having a perfect blossom, and is regarded as one of the best standard early sorts." 25 cents per dozen; $1 per 100.

BRADLEY (S). Vigorous grower; fruit large to very large; in form almost perfection; color bright red, high flavor, very firm, enormously productive.

$1.50 per dozen.

BLACK (S). Fruit very large, nearly black; a great bearer.

3c per dozen; $1.25 per 100.

GROVES (S). Said to be one of the most improved with us, a medium early, very productive sort, rich, dark red color, fine, large size.

Per dozen, 30 cents; $1 per 100; $7 per 1000.

IMPROVED SHARPLESS (S). A choice variety which improved that it is not the Wilson at all, but nevertheless we consider it a variety of great promise.

Per dozen, 25c; 75c per 100; $3.50 per 1000.

ANNIE LAURIE. "Originated about six years ago by Mr. John F. Beaver of Montgomery County, Md. Mr. Beaver is the most successful amateur grower that I know of. During the last twenty years he has tested nearly all the leading varieties, and he thinks this is not surpassed in real merit. He has carried it to a large number of horticultural meetings, and it always created a sensation. One of the commercial growers near Dayton, Ohio, when he showed this in his nursery, from the originator's place, said: 'I must have some of those plants if I have to mortgage the farm to pay for them.' The same man wrote me after he had believed it to be the best yet introduced. It comes so near perfection in size, form, color and quality that when shown at exhibitions, a large number of specimens are carried away for seed, or to be shown to those who could not attend. At the strawberry meeting in this county I had it and the Prince of Berries, the standard of excellence, handed around for all to taste, and many declared the Annie Laurie to be the better."—Crawford.

25c per dozen; 75c per 100; $1 per 1000.

ADVOCATE (S). Originated in Canada; large size, regular, firm, quality fine, great yielder.

25 cents per dozen; 81 per 1000.

SPLENDID.—"Fruit smooth, bright red color. It is firm, a good keeper and has a perfect blossom. It begins to ripen with second picking of Crescent and holds out large berries much later; makes plants freely, plant is healthy and free from rust. In market Splendid brought 10 cents per quart when Warfield and shady fruit at 5½ cents. Splendid yielded 8000 quarts per acre when Crescent and Warfield only produced from three to five thousand quarts per acre. Truth is "stronger than fiction" on this one. Solberg simply describe it as it appears where it originated, believing when known its merits will prevail. I do not indulge in a multitude of superlatives, such as "most remarkable," "most promising," "largest," "handsomest," "un-
surpassed," etc., but state exact facts ascertained from count, measurement, observation and ex-clusion, so that those who have not known it may get a fair idea of its characteristics."—Originator.

25c per dozen; $1 per 100; $4 per 1000.

SPARTA. A seeding of the Warfield, and a splendid fertilizer for that sort; can be shipped with it.
Per dozen: $3 per 100.

SMELETZER EARLY. "Very vigorous and healthy plants. Yielded an abundance of fine
berries, and similar to Smith's in habit of plants and fruit; begins to ripen its fruit early and continues in bearing a long time."—(From 1894 Bulletin of Delaware Experiment Station.) We had this in fruit on both our farms, and in each case we picked our first ripe berries from this variety. For so early a berry it is quite productive, decid-
edly ahead of Michiel's Early in both size and productiveness. In quality and appearance it resembles Michiel's. Best of all for an extra early strawberry, especially adapted for the South and California.—Slaymaker & Son.
Per dozen, 25c; $1 per 100; $4 per 1000.

LADY, conical, scarlet color; will dry up before it will decay.
75c per dozen.

LANAI. A splendid berry from the South ern States.
Per dozen, 25c; 75c per 100; $3.50 per 1000.

KLICKITIA. Noted for its high quality, and the therefore very fine for home use.
Per 100, 50 cents.

JERSEY QUEEN. A most superb berry in many sections being very large and beautiful, and possessing a very high flavor.
25c per dozen; 75c per 100.

KENTUCKY (S). A very superior late va-
-riety, which holds its fruit well up from the soil.
25c per dozen; $1 per 100; $3.50 per 1000.

BISEL.—The Bisel is a selection of the Wil-
son, propagated in 1897. Blossoms are pistil-
late. Plants healthy, vigorous grower and abundant plant-makers. They have long, fine-
matted roots which enables them to stand severe droughts. The fruit is very large, luscious and firm. Color, a deep, glossy red with double calyx. Very productive, season somewhat long, but continues to fruit later and very uniform in shape and size. The fruit is held from the ground by large fruit trusses, but protected from mold by its large calyx. One of the best plant makers. Runners large and long and sets its plants wide apart. Can be set 3/4 to 4 feet in the row, and is usual row sufficient to pro-
duce a full crop."—Originator.
25c per dozen; 75c per 100; $1.50 per 1000.

BERLIN. Of the Dubach class of berries; ver-
-ry large, dark red, as good a shipper as the old Wilson.
Per dozen, 25c; 75c per 100; $3 per 1000.

Big Bob (F). Fruit large size and of ex-
-cellent quality.
25c per dozen; 75c per 100; $1 per 1000.

LONGFELLOW (S). Grows well with us; said to possess great points of excellence in many sections; is highly prized in the Santa Cruz regions.
Per dozen, 25c; 75c per 100; 83 per 1000.

BIDWELL (S). A very choice sort, and quite extensively grown in California; very large size, delicious flavor, and very early.
25c per dozen, 75c per 100; $1.75 per 1000.

EDGAR QUEEN (S). One of the prized-
-pest in the Old' s Columbian Exposition
and described as follows: "This is the result of a lifetime devoted to improving the straw-
berry; the originator selected this as the best, and it has been repeatedly grown from seed. It is unrivaled as a plant-pro-
ducer and equals Crescent in productiveness.
Per dozen, 25c; 75c per 100; $1 per 1000.

EDGAR QUEEN (S). One of the prized-
-pest in the Old' s Columbian Exposition
and described as follows: "This is the result of a lifetime devoted to improving the straw-
berry; the originator selected this as the best, and it has been repeatedly grown from seed. It is unrivaled as a plant-pro-
ducer and equals Crescent in productiveness.
Per dozen, 25c; 75c per 100; $1 per 1000.

This is the earliest and most beautiful, has been well tried now North and South, and seems to succeed everywhere. We have never had a disappoint-
ment and ripens up evenly. Once in a while the larger ones are fan-shaped, with a beautiful green double calyx; in the best of its kind it has a beautiful bright scarlet color makes it a favorite
with all. It not only has color, but quality.—Thompson's Sons.
Per dozen, at 12. $1.25 per 100.

BELLE. About five years ago a single plant of this variety was sent me for trial by the originator, Mr. M. T. Thompson (Cleveland Nursery Co.). I was so well pleased with it that I purchased the plants and increased the stock. In the spring of '93 I sent it out on trial as "51." The BELLE gives promise of being a great variety here; it is a rank, vigorous grower, and the berries are of good size and deliciously
flavored.
Per dozen, at 12. $1.25 per 100.

PRINCE OF BERRIES (S). This is celebrated for its high flavor and brilliant color.
Per dozen, at 12. $1.50 per 100.

GANDA BISLIE (S). A variety of great ex-
-cellence.
Per dozen, at 12. $1.75 per 100.

GILLESPIE. A strawberry that does not succeed in all localities. These berries are be-
tween medium and large size; have a won-
derful red, ruby color, with prominent golden
seeds. In our large collection of berry plants this is the most productive; has a per-
fect flavoring also very rich and high flavored. The Gillespie has produced enormous fruits, speci-
men fruits having measured three inches in diameter (not circumference.) It is not an extra produce variety, but it is a rampant, vigorous grower. 25c. per 12; 81.25 per 100. 

GOLDEN. This only succeeds in certain localities, but where it does it is a grand berry. 25c. per 12.

CUDAS. The new, exquisitely flavored strawberry of Southern California; very early, and a great shipper. 25c. per 12.

WOOLVERTON. (S.) One of the best (60) stamine sorts known for planting with fertilize varieties, as the blossoms are heavily charged with pollen; the fruit of this sort is very large, a brilliant lustrous red, very sweet and finely flavored; quite productive. 25c. per 12; $1.25 per 100.

Latest of All. 25c. per dozen. 
Cvete. 25c. per dozen. 
Empress of India. 25c. per dozen. 
Lord Suffield. 25c. per dozen. 
Laxtons No. 1. 25c. per dozen. 
Laxton's Commander. 25c. per dozen. 
Early Crimson Pine. 25c. per dozen.

The above eight sorts are of European origin; each grower to test them as they may turn out to be something very choice for your location.

PART 3.

New Strawberries.

We would particularly recommend a trial of the following they have done splendidly with us: Magoon, Laxtons Royal Sovereign, Rival Hudson, Cardinal, Four Seasons Berger, Dollar No. 2, Parker Earle Jr., Lucida Perfection, Russian, Elba, Blonde, Bicolore, X 3 No. 4, Clyde, Royal Red, Louis Guther, Ridgeway, Mele, and Vallejo.

MAGOON. This is an Oregon seedling, and a berry of great merit. It surpasses the Sharpless in rank luxuriant growth the fruit is of gigantic size, clear cherry red in color; very firm and a berry that stands wet weather splendidly. This berry is enormous ly productive, and it will perfect more large berries, probably, than any other berry in existence. We have 9 quart boxes of fruit have been picked from a single plant; but if a whole acre would only average two or three quarts to the plant what an enormous yield it will turn out to be. This berry is already celebrated as being one of the very best shipping berries. The blossom is perfect, and the foliage entirely free from rust of any kind, much more stolus, and are at their best at about 3 years of age. Per doz., 50c; per 100, $3.50.

Edith Christy, a very valuable Australian strawberry closely allied to the famous Australian Crimson strawberry which is so exten-sively grown in Southern California; a sort of berries of good size, of a rich exquisite flavor. Each 25c.

La Bicloore, a very rare type of strawberry possessing a wondrous tint of color similar to some very rare rose; the berry is long and tapering; the color of one-half the berry is a rose red; the other half a waxy white; flavor charming; a very unique and valuable sort. Per doz., 50c.

GLAVIER. A Colorado seedling that is ex-cellent all other sorts as a shipper. Per doz., $1.25.

THE PARKER EARLE JR. This is the most remarkable new strawberry of the season and resembles its famous parent in many respects; however, it is much earlier than the old Parker Earle, and the fruit all averaged larger, the plants also in much more thrifty, and produces a vast number of run-
ners, while the old Parker Earle is a poor plant in most places. The fruit of the Parker Earle Jr. is about perfect in size, color, yield and quality; the color is a bright dazzling red, with golden seeds, while the flavor is very much brighter, and produces to an intense degree. The ripe berries are also quite highly perfumed with a high flavor; it is very solid, a good shipper, and home berry; blossom perfect. Per doz., 50c; per 100, $3.50.

GLEN MARY. Very large size, bright, glossy, firm, and polishes to a berry that fairly glintens on well ripened specimens; flavor delicious; a splendid, fauci berry. Per doz., 50c.

ELI. An extremely early sort, rapid, rank grower, much superior to Mitchell's Early in all respects. Per doz., 25c.

ENCHANTRESS. This produces the largest plants of any variety that we ever saw; the fruit is very large, highly colored, and possesses a superb flavor. Each 25c.

BLOOMER. A very valuable sort; fruit a polished yellowish red, and such a flavor, we think so well of this that we will set a large patch of it. It is unexcelled as a shipper; a great producer of the choicest fruit. Per doz., 50c; per 100, $1.00.

CHILD'S SEEDLINGS. Another wonder of the world! A large blackish red fruits, of a honeyed flavor; also rich and spicy; great yielder and plant maker. Per doz., 50c.

DOLLAR NO. 2. A magnificent type of the famous Dollar strawberry. The original Dollar strawberry is the standard for dollar strawberries, and the fruit of this sort is quite as large as the original; it is fully its equal; the plants of this sort attain an enormous size, with heavy, spreading dark green leaves which greatly protect the blossoms against frost and rain; the fruit is very large, long and tapering, while the color is the most brilliant of reds, fairly sparkling in well-ripened specimens; the quality is a taut and acid, very agreeable to all tastes. Each 25c.

LUCIDA PERFEITA. A new berry of surpassing merit: fruit a large, a brilliant, glowing red, and produced in lavish abundance; a low growing sort, foliage blue green in color; leaves small and round; a great plant maker; a very distinct flavor, and it is a very unique berry, all things taken into consideration: blossom perfect. Each 25c.

SKAGIT. A very fine seedling berry, from the state of Washington; enormous fruit of high quality, and very prolific plants; beautiful, rapid growers; a splendid shipping and canning berry; also a perfect flowering sort. Per doz., 50c.

Laxtons Royal Sovereign; said to be the greatest strawberry ever produced in England; in California it is also a wonder, the fruit being of enormous size and flavored with the most delicate wild wood strawberry aroma.

25c each.

PORTER. A splendid berry in every respect, but its superior color and flavor are its distinguishing characteristics.
Per Doz. 25c; per 100 $1.00.

PLUM CITY; is really a failure with us.
Per Doz. 25c.

Ocean City; we think well of this, but it is too early to speak well of its good points as we have not had the plants long enough.
Per Doz. 25c.

X 3 No. 4; a strange name for a strawberry, but nevertheless it is a most superb sort, the fruit is very large, most brilliantly colored, and the plants are so prolific that if they would be desired, it yields two crops a season.
Per Doz. 50c.

CLYDE; a very superior sort; great yields, good color, and excellent quality.
Per Doz. 50c.
Royal Red; an extra sized berry of irregular shape, flavor very acid, especially desirable when extra large berries are wanted.

Per Doz. 50c.

Louis Gauthier; a French strawberry that gives most excellent results in California, everbearing, similar to the La France. 50c. each.

Vallejo strawberry; produces long trusses of vines that fairly blaze with brilliant colored fruits, something new and distinct in the strawberry line; this strawberry is only an ornament and makes a most excellent pot plant; fruit not edible.

Per Doz. 25c.

Jerry Rusk. Each 10 cents.

Rival Hudson; of enormous size, very early and an abundant yielder.

Peerless. 10 cents each.

Unnamed; several splendid sorts. Per dozen 25 cents.

Cardinal. Per dozen 25c., per 100 $1.

Scarlet Queen. Per dozen 25c., per 100 $1.

Edith. Per dozen 25 cents.

Kyle. Per dozen 25 cents.

King Worth. Each 10 cents.

Tahoe. Each 10 cents.

Ed. LeForte. Each 10 cents.

Crystal Palace; very fine. Each 10 cents.

Edie May. 25 per dozen.

Bailys Giant. 25 cents per dozen.

La Montrose. Each 10 cents.

Captain. 50 cents per dozen.

Cobden Queen. 25 cents per dozen.

Pardosso. Each 10 cents.

Mastadon. Each 10 cents.

Perfection. Each 10 cents.

Lehigh. Each 10 cents.

Seek No Further. Each 10 cents.

Princess Dagman. Each 10 cents.

Smalley No. 6. 25 cents per dozen.

Margaret. 25 cents per dozen.

Drought King. 10 cents each.

Ridgway; this is a fine berry and no mistake. 25 cents per dozen.

Frogmore Late Pine. Each 10 cents.

Satisfaction. Each 10 cents.

Mele; extra choice. 25 cents per dozen.

Tennyson. Each 10 cents.

McKinley. Each 10 cents.
PART 4.

Alpine Strawberries.

These are very fine, and no garden is complete without them; they are small in size, but great and regular bearers, and are the very thing for beds. The use where something finer is wanted; they are not as good to eat out of hand as the larger sorts, but when served with sugar and cream, or made into a shortcake, do well. It is true that they are tedious to pick, on account of their smallness, but then you can have them from the earliest spring until late in the fall, in large abundance.

RED ALPINE. Long, dark crimson; high, aromatic flavor; great yielder.

10c.

WHITE NOVELTY. Large size. 50c. doz.

RED BUSH ALPINE. A wonderful berry, having no runners, but growing into immense stool plants; fruit very similar to Red Alpine; enormous yielder, single plants in New York state having yielded one pint of berries at a picking in November! These are fine plants for borders, as they throw out no runners, and are singularly beautiful ornamental plants, when loaded with their dense loads of fruit; they are grown easily from seed.

Each 10c.; per dozen 1$. WHITE BUSH ALPINE. Same as above only better for bearing white.

Each 10c.; per dozen 1$.

SIERRA RED ALPINE. A choice wild strawberry from the Sierra Nevada mountain, California, possessing a very high, tartish, aromatic flavor, valuable only for experimental purposes. 20c. doz.

RED AND GOLD ALPINE. Of very little value in commercial experiment with. 20c. doz.

WHITE WOOD ALPINE. Same as the Red Alpine, except the berries are round, in size, somewhat shorter, and of a different color. 20c. doz.

RED WOOD ALPINE. Round red variety. Priced at Red and White Wood Alpine plants.

25c. per dozen.

ROYAL HAUTBOIS (S.). A most distinct type of strawberry; the fruit is of good size; light, purplish red in color, with a flavor like a Catawba grape, being rich and musky; the Hautbois is a great yielder.

75c. per 12; $2.50 per 100.

BELLE BORDELAIS. A variety of the Hautbois, with very ornamental foliage; fruit medium size, juicy, and with a high, musky flavor; a splendid table variety.

$1.25 per doz.

MEXICO. A very handsome plant; the fruits are produced in great abundance, and are large, heavy, and rich in flavor.

50c. per 12.

BELLE DE MEAUX, or Black Alpine. A black strawberry of fair size, which will bear enormous crops all season long in any climate; this fruit possesses the mystic delightful flavor of the wild Alpine; will grow readily from seed, and produce true to name.

50c. per 12.

THE FOUR-SEASONS BERGER. One of the largest of all Alpines and very productive. 50c. per dozen.

AMELIORE. A gigantic sized berry for an Alpine, everbearing in all climates.

50c. per doz.

RASPBERRIES.

PART 5.

Prepare the land for Raspberries the same as for strawberries; have therows seven feet apart, and plant 2 feet apart in the rows. If the canes are to be trellised, allow them to grow as long as possible; if they are to be staked, pinch off the young canes when 3 feet high. The following spring the young laterals should be pruned within 12 inches of the cane, work in an abundance of manure each spring; cut out all old wood in the fall of the year.

The best raspberries for profit are the Hud-son River Antwerp, French Everbearing, First and Best Hansell, Miller Red, Barter, Cuthbert, Cuthbert Black. Beans, these among the red sorts; Columbian, Schaeffers, Colossal and Gladstone among the purple ripes; Black and Yellow Queen, Black and Yellow Antwerp among the yellow sorts. The best black sorts are Kansas, Gault, Gregg, Souhegan, Lovett and Ohio. You will make no mistake if you plant any or all of these.

Red Raspberries.

HUDSON RIVER ANTWERP. One of the most satisfactory that can be grown. We highly recommend this; it has tall heavy canes and flourishes splendidly in hot climates. It is an enormous cropper and many berries average an inch in diameter, the canes unless staked or trellised will not bear. Of crimson fruits, a splendid market sort, medium season in ripening. Price 50c. per dozen, $2 per 100, $20 per 1000.

FRENCH EVERBEARING. One of unusual merit, and quite distinct from the average red raspberry. It undoubtedly forms a larger berry than any other red variety known; the leaves are a dark green and the canes are just immense in size. This is a strange and unique raspberry, as it gives three crops in one season; the fruit averages of the largest size, being about one-third larger than the Cuthbert; the fruit is singularly beautiful and attractive, being a deep wine color, large and plump, with long, scarlet bloom. The flavor is superb, being rich, sweet, spicy, aromatic and delicious, melting in the mouth with no hard core at all. This marvelous berry furnishes fruit in the greatest abundance, from early spring until the snowy of winter set in. It is of decided merit as a shipping berry, standing travel splendidly and when placed in market sells itself by its wondrous beauty. This great raspberry is of French origin, being imported from France by the late C.E. Hamilton of Virginia's most valued introducers. As it is such a valuable fruiting raspberry, the plants of this sort will be rather scarce for several years, as persons who purchase this variety prefer to form their own plantations, instead of disposing of their surplus plants. We consider this variety the best for raspberries of any offered at the present day. We believe it the fruit most tolerant in character—standing all climates alike; the extreme cold of the east and the scorching sun of the south.

Price 10c. each, 75c. for 10, $5 per 100.

FIRST AND BEST. We are pleased to be the introducers of such a valuable raspberry. This variety is widely different from all other raspberries, because the fruit buds spring direct from the old wood; whereas in all other varieties of red raspberries the old plant first must take the new growth before any fruit buds appear. In the very earliest of spring, the First and Best is ready to bloom—long before the other raspberries are in flower. In cases. If the first blossoms are killed by frost, a new crop of bloom immediately appears, and if this one gets killed; another burst of bloom will follow, and unless practically you will always get a crop, even if killed half a dozen times. This most remarkable raspberry ripens with the earliest strawberries and is one some seasons it will ripen before. It is a very productive sort, of a clear, bright red color, good size, and possesses an exquisite flavor; the season of fruiting is about six weeks; the fruit retains its size until the last. It is at once
noted that a red raspberry ripening so early
is a great money maker, as the first fruit in
the market commands big prices and sells
readily. This raspberry we have good reason
to believe will prove hardy throughout the
United States.

Single plants, 20c. each; $1.80 per 10.

MILLER RED RASPBERRY. Here is an
instance of one of the good things of life
which has been kept from the public for
some years by a few growers, who preferred
to market the fruit rather than sell the
plants. This berry has been fruiting for some
years past, and would probably have re-
mained in seclusion for a long time to come
if it had not been brought to public notice by
a few enterprising fruit men, who desired
that the horticultural world should know
more of its good qualities and reap some of
the profits thereof. Only a short descrip-
tion is necessary.

The bush is a stout, healthy, vigorous
grower, not quite so tall as the Cuthbert, but
rather more stocky and dwarfish. It is well
calculated to hold up the immense crops of
fruit with which it loads itself.

As compared with Cuthbert and Thomp-
son, growing in the same field, it has never
yet shown any signs of winter killing, whilst
these have both suffered considerably in
mild winters. Berry is as large as Cuthbert
holding its size to the end of the season;
round in shape; color bright red, does not fade, but will hold its color after shipping; is of other red variety; core very small, does not crumble, making it the firmest and best shipping berry in existence; has not the flavor of some varieties, but a rich, fruity flavor entirely its own. The time of ripening is with the very earliest, the first picking being with Thompson's Early, June 11th, ripening double the quantity of berries at each picking that Thompson's did, in the same field, under the same conditions, continuing until August 30th. These raspberries have been grown three years; fully as prolific as Cuthbert. It does not seem particular as to soil, having been fruiting on light, sandy, gravelly (and heavy clay soils) with equal success.

50c. per 12; $1 per 100; $20 per 1000.

HANSELL. Very large size and extremely early; brilliant red berry; very firm and therefore a great shipping raspberry; very productive; succeed well in all places.

50c. per 12; $1 per 100; $8 per 1000; $75 per 10,000.

SURPRISE. A gigantic sized red raspberry, deliciously flavored and an enormous yielder; splendid shipper. It is a very late sort, ripening when nearly all other sorts are gone.

50c. per 12; $1 per 100; $2 per 1000.

GRIM'S BEAUTY. The most desirable sort; large size; bright glossy red, great yielder, and possesses a fascinating, tartish flavor.

75c. per 12; $1 per 100.

BARTER. Very productive; splendid market berry; fruits nearly an inch in diameter; bright red color; delicious flavor.

50c. per 12; $1 per 100; $2 per 1000.

OCTOBER RED. A variety that yields a marvelous crop of large sized, rich, acid flavored berries in October and November.

$1 per dozen; $12 per 100; single plants lots each.

CATAWISSA. Does not bear fruit until in October; these berries are as choice and fine as anything ever grown; a brilliant reddish color and a tartish flavor. Each 25c.

GREAT AMERICAN. Apparently the same as the French Everbearing. Same price.

AMAZON. $1 per 12.

FRANCONIA. $1 per 12.

CUTHBERT. 50c. per 12; $2 per 100; $12.50 per 1000.

CLARKE. $1 per 12.

FASTOLF. $1 per 12.

BRANDYWIN. $1 per 12.

MARLBORO. 50c. per 12; $1 per 100.

TURNER. $1 per 12.

HIGHLAND HARDY. $1 per 12.

PLATINUM. $1 per 12.

RANCOAS. $1 per 12.

SCARLET GEM. $1 per 12.

MARION'S FAVORITE. $1 per 12.

LONDON RASPBERRY. $1 per 12.

ALL SUMMER. $1 per 12.

ROYAL CHURCH. $1 per 12.

BLACK HILLS RED. $1 per 12.

THOMPSON'S EARLY. $1 per 12.

PRIDE. $1 per 12.

PHENIX. $1 per 12.

LAIRSBY. $1 per 12.

WILLER'S WOODLAND. $1 per 12.

SUPERLATIVE. Each 50c.

KELWAY QUEEN. $1 per 12.

Long conical red berries; high flavored and great yielders. 10c. each; 75c. per 10.

HERSTINE. 75c. per 10.

KNEVET. $1 per 12.

RELIANCE. 50c. per 12.

THOMPSON. 50c. per 12.

Superb. 50c. per 12.

Purple Raspberries.

SCHAFFER'S COLOSSAL. Is a large, purple berry, with a delicious, sub-acid flavor; is that best canning berry known, and is grown very extensively for that purpose; will succeed in all soils and locations. In yield it can hardly be surpassed by anything. It is a cross between the black cap raspberries and the red ones.

75c. per 12; $1 per 100; $30 per 1000.

GOLDEN ALASKA. Is claimed to be a rival to the Schaeffer's Colossal. Just now it is being widely advertised by American nurserymen; we have heard no unfavorable reports of it yet; fruit a fine purple color, almost an inch in diameter; plants are great yielders and luxuriant growers, attaining a height of 10 feet.

10c. each; $1 per 10; $5 per 100.

GLADSTONE EVERBEARING. We are highly pleased with this sort, as it gives a marvelous crop in California. It is a great yielder; fruit is of large size; a bright, redish purple in color, and it possesses a magnificent flavor. It yields a heavy crop in early spring, and again in the fall. The young canes give a crop almost equal to that of the old growth.

$1 per 12; $8 per 100.

NEW FRENCHELLE. Fine purple sort. $1 per 12.

PART 6.

Yellow Raspberries.

GOLDEN QUEEN. A sport from the Cuthbert; this is the most magnificent raspberry that we have ever tested; that is, in the line of yellow raspberries; the flavor is extremely delicious, being spicy, sweet, with a most wonderful wild wood aroma. Visitors to our place pronounce this the queen of all raspberries for rich high flavor. The fruit of this sort is somewhat smaller, a very yellow color, and large size. We believe that this sort will yield more fruit at one crop than any other variety that we have.

75c. per dozen; $2.50 per 100; $9 per 1000.

GOLDEN ALASKA. A type of yellow raspberry from Alaska; one of the kind that the Klondyke prospectors feed on; it is a great yielder and a good sized berry.

$1 per dozen; $8 per 100.

GOLDEN DEW DROP. A very rare and distinct sort. Each 50c.

AMERICAN WHITE. Each 50c.

SILVER QUEEN. Each 50c.

YELLOW SPICE. A yellow type of the black California raspberry; it is a large size and splendid flavor. Each 25c., per doz. 2.$

CAROLINE. A large yellow sort almost unrivaled for productiveness.

Per doz. 50c.; per 100 $1.50; per 1000 $15.

BRINKLES ORANGE. Per doz. 50c.;

per 100 $1.50.

HIMALAYAN. A wild raspberry from the Himalayan mountains; a rank and vigorous grower, and attains a height of 10 feet, with canes an inch thick; the fruit is of good size, a brilliant yellow, very sweet and fine; this variety is very productive, and one of the best for a warm climate where other sorts are scorched up by the intense heat.

Stem 5c. each.

OCTOBER YELLOW. A most superb sort. Should be moved down early in the spring, and in October and November it will give an enormous yield, these plants have crinkled beautiful foliage.

Per doz. 50c.; single plants, 25c.

CHAMPLAIN. Each, 25c.

PART 7.

Black Raspberries.

GAULT PERPETUAL RASPBERRY. The greatest novelty in small fruits. Fruit immense size; commences to ripen with Greggs, continuing until frost. Plate made from photograph of tip cut September 21st, 1893.
**SCHAEFFER’S COLOSSAL RASPBERRY.**

MAHLER. 75c. per doz., $3 per 100.

BLACKBERRIES.

The same culture as for raspberries may be given. Our variety tests have shown us that the following are the best sorts: Cosumnes, Humboldt, Minnewaski, Erie, Kittitany, Lawton, Crandall and El Capitan. These sorts head the world for large blackberries and lots of them.

COSUMNES. A wild blackberry, discovered on the Cosumnes River, California, and noted for its luxuriant growth and productiveness, and the large and superior flavored fruit.

10c. each, 75c per 12, $3 per 100.
MINNBASKI. A very choice sort; fruits large, roundish, deliciously sweet; a heavy bearer.

EARLY CLUSTER. A vigorous, healthy grower; fruit large and without any hard core. 75c. per doz.

STONE'S HARDY. Medium size, good quality. $1 per doz.

WACHUSETT. A choice thornless variety. $1 per doz.

THOMPSON'S EARLY MAMMOTH. A trailing blackberry; should be trained on a trellis; fruit very large and of excellent flavor. $1 per doz.

LINDON. Late; fine quality. 75c. per doz.

LEADER. 25c. each. The following varieties are 75c. per dozen, $1 per 2 doz.

AGAVAM. Flavor equal to that of the wild blackberry; very productive, and ripens early.

WILSON JUNIOR. An improvement upon Wilson's Early.

SNYDER. A very distinct sort, yielding large crops of medium-sized, superbly-flavored berries; very early.

R. B. TAYLOR. Of largest size, fine quality; very productive, and quite hardy.

WILSON'S EARLY. A valuable sort for market or home.

EARLY KING. Large, sweet, and very productive.

ORION CULT LEAF, or EVERGREEN. Quite a distinct variety, with beautiful ornamental foliage, the vines growing year after year like a grapevine. The first fruit borne is quite small, and inferior, but when well established, at about three years of age, the vines yield enormous crops from the first of August, and are upbearing. Old plants will cover a large area of ground, or may be trellised, and a single plant will yield in one season from 25 to 40 gallons of fruit, the berries of fair size, very sweet, and of a rich vinous flavor.

10c. each, 75c. per 12, $1.50 per 100, $4.00 per 1000.

KITTITANY. The standard market berry; fruit jet black, large; extremely productive, and succeeds in all localities.

50c. per 12, $1 per 100.

KITTITANY. The standard market berry; fruit jet black, large; extremely productive, and succeeds in all localities.

50c. per 12, $1 per 100.

SILVER STAR BLACKBERRY. This fruit will yield as much fruit as the Lawton. Fruit yellowish green in color; but the flavor is what is wonderful, being entirely different from any blackberry, as it is very sugary and rich. 25c. each.

ERIE. A very choice sort, berries very large and most deliciously flavored; a splendid market berry.

50c. per 12, $1 per 100.

ANCIENT BRITTON. Really a very fine sort, large size, melting, sweet and rich.

75c. per 12, $2 per 100.

DORCHESTER. A very old sort, and excelled by very few for productivity.

75c. per 12.

GRANDALL'S EVERBEARING, or Texas Hybrid. A choice sort, extensively grown in California, and probably the very best for extreme warm climates—of no value in cold localities; low growing; fruit very large, deliciously flavored, and very sweet; is borne in the greatest abundance from early spring until fall. Large in the fall. This variety is heavy demand in Southern California and Arizona.

50c. per 12. $2.50 per 100, $15 per 1000.

EL CAPITAN. The best blackberry with which we are acquainted; yields a heavy and continuous crop of fruit for about three months, outliving in productiveness all other sorts; fruit large, jet black, vinous and sweet; very heavy canes, which attain a sturdy, tree-like form.

The demand for this variety will be immense when it is better known.

50c. each.

This season's test has shown us that the Erle and Cosumnes are equal if not ahead of the El Capitan.

CRYSTAL WHITE. A pellate sort that should be planted near other varieties to secure good crops. Fruit white and of a pleasant and delightful flavor.

$0.12, $2.50 per 100.

OHMER. A very superior sort; fruit of enormous size, a glossy jet black, with a rich, high flavored and productive.

50c. per 12. $2.50 per 100.

CHILD'S TREE, or TOPSY. We do not see much of calling this a tree blackberry, as many of the vigorous growing sorts can be trained into tree forms. This variety is a great and abundant bearer of the choicest fruit.

50c. per 12. $2.50 per 100.

MAXWELL'S EARLY. A most remarkable sort; fruit large as Early Harvest; rich, sweet and luscious. This variety ripens before strawberries are gone; very heavy crop.

Will be widely planted when better known.

10c. each. 25c. per 3, 75c. per 12, $3 per 100.

EL DORADO. Fruit enormous, possessing a rich, sweet, pleasant flavor.

25c. each. $1.75 per doz.

SPALDING. A most noted sort, from Texas, valuable only in warm climates.

25c. each.

DALL. Vigorous, drooping, thorny, bearing fine fruit splendid for a warm climate.

10c. each.

SACRAMENTO RIVER. A choice wild sort, collected in the Sacramento Valley, California.

75c. per 100.

WASHINGTON. A superior wild sort, collected in the State of Washington.

75c. per 100.

OLD BILL. Claimed to be the largest of all blackberries.

30c. each.

WILD SWEET. A superb table fruit, small in size, but very rich and sweet flavor.

10 for.

HUMBOULD. A distinct type of blackberry, and one of the greatest values. The vines grow in a trailing form along the ground, and continue to form larger vines each year, as they do not die down like the common blackberry. The fruit is entirely different from that of our Eastern varieties possessing a wildwood aroma, rich, sweet, spicy and aromatic flavor. Very prolific. The fruit sometimes one and one-half inches long, of a beautiful reddish black.

On account of the strange, peculiar aroma and delightful flavor, they are highly prized for canning, and make fine jams, jellies, etc., and excellent for immediate table use.

10c. each. $1.25 per 10, $10 per 100.

SNOW QUEEN BLACKBERRY. A wondrous berry with a rare white tint of color; the prevailing color however is white, very productive, bearing fine fruits; flavor very spicy and rich. Each 25c.

IMPERIAL HIGH BUSH BLACKBERRY. Grows like a high, cones lince thick; enormous round berries but very tart in flavor.

25c. each, $1.75 per 10, $15 per 100.
habit, with black fruit, of excellent flavor, that ripens much earlier than the blackberry.

The Dewberry is a profitable berry to raise, and readily commands a good market price.

Their culture is similar to the blackberry. The soil should be well-drained, give best results.

MAY'S HYBRID DEWBERRY. The largest of all dewberries, and in California it is 2 weeks earlier than the Lucerita; it is of jet black color, delicately flavored, and is extremely productive.

MAMMOTH WHITE. A superb fruit of enormous size, beautiful white in color, with a rich, sweet, honey-like flavor; very productive. This is a tender plant, recommended only for the hot interior portions of California and the Southern States. 10c. each, 50c. doz., $5.50 per 100, $25 per 1000.

LUCERITA. A very choice sort, fruit one and one-half inches long, and nearly an inch in diameter, jet black, very sweet and luscious, rivaling any blackberry. Very hardy. 75c. per 12, $2 per 100, $15 per 1000.

BARTEL'S MAMMOTH. Very large, delicately flavored berry. One dollar per dozen.

MANATEE. A most marvelous variety for warm climates; yields at the rate of 250 bushes to the acre, ripens in April. 50c. per 12, $3.50 per 100.

LONE STAR. A variety of great merit; fruit black. 50c. each.

TEXAS WHITE. A very superior variety, berries white. 50c. each.

SIERRA RED. Fruit small; of value only for experimental planting. 10 for 25c.

SIERRA YELLOW. Fruit yellow, otherwise like the Sierra Red. 10 for 50c.

NEW CLEANS. (Mortgage Lifter.) Gigantic berries, great yielder and most excellent flavor. Each 25c.

CRYSTAL DEWBERRY. Beautiful silver colored fruits of a rare flavor. Each 25c.

OREGON QUEEN DEWBERRY. A select wild sort from Oregon; very ornamental with beautiful reddish wood set with crimson thorns; fruit very large and plenty of it. 50c. each.

FAY'S PROLIFIC. Good size, clear cherry red, delightful flavor; a great yielder. 10c. each; 75c. for 10; $3 per 100; $40 per 1000.

CHERRY. Sub-acid, large, brilliant red fruit, very fine. 10c. each; 75c. per 10.

WHITE GRAPE. Large, white berries, very productive. 10c. each; 75c. per 10.

BLACK GRAPE CURRANT. A very fine black sort. 10c. each; 75c. per 10.

OGDEN BLACK. Large jet black fruits; of high flavor. 10c. each; 75c. per 10.

Baldwin's BLACK. Fruit large, rich, sweet, and musky in flavor. 15c. each; $1 per 10.

RED DUTCH. Medium-sized fruit, borne in large bunches. 10c. each; 75c. per 10; $5 per 100; $40 per 1000.

WHITE DUTCH. Similar to the Red Dutch, except in color. 75c. per 10; $5 per 100.

BLACK CHAMPION. Choice black, English sort. 15c. each.

LA VERSAILLES. Excellent flavor, large, red. 15c. each.

BLACK NAPLES. Large size, great yielder, black. 10c. each; 75c. per 10.

LEE'S PROLIFIC. A choice black currant. 10c. each; 75c. per 10.

VICTORIA. An excellent, very late, red currant. 15c. each; 75c. per 10.

GRAND'S BLACK. Large black currant, with musky flavor; a great yielder. 15c. each; $1 per 10.

NORTH STAR. A new red cast that is being widely planted. 25c. each.

IMPERIAL YELLOW. The best yellow currant. 30c. each.

BLACK ENGLISH. A good yielder. 10c. each.

MOORE'S RUBY. Large, red, delicious flavor; an American variety, new. 30c. each.

PRINCE ALBERT. A red currant of fine quality. 40c. each.

WHITE GONDOIN. Large white currant. 25c. each.

RED GONDOIN. An excellent sort for a hot, dry climate; large, red and very productive. 15c. each; $1 per 10.

PRESIDENT WILDER. Splendid new red currant. 25c. each.

KNIGHT'S. Large, red; a choice but little-known sort. 30c. each.

GLORIE DES SABLOONS. A most remarkable currant, distinctly striped red and white. 30c. each.

WHITE IMPERIAL. A large, rich, white currant, sweet and very productive.

LONDON RED. A choice red sort. 25c. each.

BELLE DE ST. GILES. A fine new currant, as large as Cherry and three times as productive. $1 each.
Gooseberries.

Part 11.

The demand for choice varieties of gooseberries is very great at present, as it has been demonstrated to a certainty that when well grown it is a profitable fruit to raise. A good plantation of gooseberries will last 50 years.

Plant four feet apart, in rows about eight feet apart; trim back well in early fall, and keep the center of bush well trimmed out; the ground should be enriched by the application of an abundance of well-rotted barnyard manure, which should be thoroughly worked into the soil early each spring.

For mildew on English sorts, spray with the Bordeaux mixture when first in leaf, and again 2 weeks later.

OREGON CHAMPION. Very productive; fruit of medium size, rich sub-acid; succeeds everywhere; no mildew. 35c. each; 80c. per 10; $5 per 100; $40 per 1000.

DOWNING. Medium-sized fruit, light green; very prolific. 10c. each; 75c. per 10; $5 per 100.

HOUGHTON'S SEEDLING. Small or medium-sized, pale red, fruit; succeeds everywhere. No mildew. 10c. each; 75c. per 10.

MOUNTAIN SEEDLING. Large, dark red fruits. 25c.

GOLDEN PROLIFIC. Fruit one and three-quarter inches in length, clear golden yellow, of superb flavor; very prolific. 40c. each.

SMITH'S IMPROVED. Light green, sweet, and pleasant flavored fruit. 25c. each.

CROWN BOB. Large, red fruit. 50c. each.

TRIUMPH. Fruit golden yellow, large, fine flavor. 75c. each.

RED JACKET. A choice American seedling; bears large red fruit; no mildew. 35c. each.

PALE RED. Fruit red, medium size; a very prolific American seedling, not subject to mildew. 60c. each.

INDUSTRY. As large as small plums; rich dark red; delicious flavor; very prolific. 50c. each.

KEEPSAKE. Fruit large, green; a vigorous grower. 50c. each.

LANCASHIRE LAD. Large, clear bright red, of excellent flavor. 50c. each.

WHITESMITH. Large, yellowish fruit; fine quality. 50c. each.

CHAUTAQUA. Fruits 1½ inches long, pale yellow, very fine. $1.25 each.

PEARL. A Canadian gooseberry of great excellence; prolific bearer and a general favorite. 40c. each.

SIERRA RED. Fruit of enormous size, orange red; aromatic, high flavor; very prolific bearer. Plant very ornamental.

Yosemite. A brilliant dark red, and very thorny fruit.

SIERRA YELLOW. Fruit a clear golden yellow, otherwise identical with Sierra Red Gooseberry. 35c. each; cuttings, which grow and root readily, 5c. each; the following the same price.

KELSEY. Large, excellent fruit; slightly subject to mildew.

AUTOCRAT. An excellent new variety.

QUEEN. New, $1 each.

BIG BOY. A celebrated gooseberry, that excites great interest at the Columbian Exposition because of its gigantic size. No mildew has appeared yet. We control the entire stock; 1.50 each.

COLUMBUS. Very fine, pretty, yellow fruit; prolific; no mildew. 75c each.

CORLISS SEEDLING GOOSEBERRY. 50c each.

Cranberries.

Part 12.

VACCINIUM MACROCARPON Alton. A trailing evergreen bush, with stems attaining a length of 3 feet. Enormous quantities of this fruit have been produced by regular culture, with great profit. The berries are of acid taste, pleasant aroma, bright scarlet in color.

Considerable interest is now being manifested in the culture of the cranberry. It may readily be grown on upland soil, as well as on damp, boggy land. For upland planting, cover the ground about 3 inches deep with sand; arrange rows 18 inches apart so that they can be readily irrigated; set the cuttings 12 inches apart in the rows, and irrigate 3 times a week; keep free from weeds, and in 2 years they will cover the ground, and will produce 3000 lbs. of fruit to the acre the first year, double that amount the second year, and from half a ton to a ton and a quarter each succeeding season.

Planting can be done from September to November, and from February until May, according to the locality. For bog planting, drain off the water to a depth of a foot; pare off the surface and cover with 4 inches of sand, and set plants out 12 by 18 inches apart. Cuttings only are used in establishing new plantations; these grow very easily.

CAPE COD CRANBERRIES. Best sorts. 75c per 100 cuttings.

BELL. Dark red, earlier than Cherry. 75c per 100 cuttings; $5 per 1000.

CHERRY CRANBERRY. 75c per 100 cuttings; $5 per 1000.

TREE CRANBERRY. Not a true cranberry. Yields an abundance of fine berries of a juicy, acid flavor; brilliant red; a fine substitute for the swamp cranberry. Attains the height of a small tree, and very ornamental. 25c each.
Rare Berry Plants.

Part 13.

RUBUS NUTKANUS. Muco. Salmonberry, the West American Mayberry; a singularly beautiful fruit, varying in color from a clear golden yellow to an orange red; delicious when served with sugar and cream.

We do not advise the trial of more than one plant; if found to succeed in the locality chosen, we will be pleased to furnish in quantity. Plants 25c each.

SHEPHERDIA ARGENTIA. Nuttall. The Buffalo berry occurs from the Missouri to Hudson's Bay, attaining a height of ten feet, with beautiful silvery foliage. It commences bearing when very young, yielding abundantly every season, the brilliant red berries ripening from December to May, at a time when all other fruits in its native region are past bearing. The acidulous edible berries are useful for sauce, jams and jellies, and excellent for the table when served with cream and sugar.

5c each; 2 for 85c; 10 for $1; $5 per 100.

THE STRAWBERRY-RASPBERRY. This is called the novelty of novelties, a strange and beautiful shrub or bush, with the foliage of a rose and bearing huge fruits like a strawberry, of a rosy red color, and most deliciously flavored. The bush grows after the manner of a raspberry, and commences to bloom when only a few inches high, as soon as set out, and continues to ripen fruit until late in the fall.

This fruit is considered a great acquisition to the list of small fruits, and is destined to become a standard market berry, as it can be utilized for every purpose that strawberries or blackberries are used.

The plant is quite hardy, and will no doubt succeed in every part of the United States, and a great sale is predicted for this new fruit this season. A native of tropical and subtropical Africa, Asia, and Australia, ascending the Himalayas to 10,000 feet.

5c each; per 100, $3.50; per 1000, $25.
JAPANESE WINEBERRY. The genuine wineberry (the improved sort) is a most rapid grower, bearing with economical and very healthy. The fruit is of good size and produced in the greatest abundance. In fact, our new wineberries are as prolific as the chandler's Colossal raspberry. The fruit is a clear, shining red, while the flavor is exquisite; better to my individual taste than any other. It yields to this fruit can be put are manifold; it can be served every way in which raspberries and strawberrys are used.

10 each; per 16, 75c; per 100, $6.

JAPANESE GOLDEN MAYBERRY. 25c each; 10 for $2; $16 per 100; $20 per 1000.

ELEAGUS LONGIPES. A splendid new berry. 25c each.

CALIFORNIA ELDERBERRY. 50c each.

THE CORAL BERRY. This is the most unique and remarkable berry ever introduced; it is a distinct type of fruit, differing widely from any variety of berry now cultivated. The coral berry is a vigorous and stout habit of growth, with large, spreading tops, and attaining a height of 6 or 8 feet. The fruit is very handsome, finely cut, of a beautiful silver color. The fruit, which is produced in the greatest abundance, is in an inner, burl or husk until it starts to ripen, when the burr opens and exposes the berry. The berry is of good size and when fully ripe is of an intense, fiery, crimson color; this berry is most deliciously flavored, being of a rich, acid flavor, and spiced with a delightful aroma, entirely different from any other berry. The fruit of the Coral berry is used for all purposes that strawberries are used for. The Coral berry is propagated by suckers, like the coral raspberry. 25c each; per 10, $2; per 100, $15; per 1000, $100.

THE HUMBOLDT HUCKLEBERRY. These huckleberries can be grown in a dry soil, as well as in moist, if occasionally irrigated; it is an immense yielder, the bushes fairly breaking with heavy loads of fruit, which is of enormous size, of a blue-black color, and a rich, delightful flavor.

DEL NORTE ROSE BERRY.

A trailing type of the California wild blackberry, bearing pure white fruit of the richest and most desirable flavor in proximity to the Humboldt blackberry, to insure perfect fertilization, or no fruit will be produced, and it is a pithy little variety, very rare and scarce.

25c each.

CRUNELLS. A fruit that is a cross between cranberry and a gooseberry.

30c each.

JAPANESE BLACKBERRY TREE. A beautiful evergreen tree, growing to a height of thirty feet; it yields huge fruits, the shape and color of the blackberry, and possessing a most superb flavor. The tree is thornless and very hardy. The fruit has a small pit, like a cherry pit, and can be used for every purpose that the blackberry is put to.

$1.25 each.

JAPANESE HONEY BERRY. I first received this as an unknown plant collected by Mrs. McNeil in Japan on an island in the Yellow Sea. It grew very slowly the first year, and proved that it required no setting. I was surprised at its rank, luxuriant growth. I was right. I believe now that it is a height of sixteen feet with canes nearly an inch thick. The next season the canes grew nearly twenty in length and almost straight up. The leaves on this plant are quite similar to the leaves on certain rose plants, except that they are several times larger than any rose leaves, the leaves being about ten inches long on the old stocks or canes. The leaves are a brilliant dark green, the under parts being covered with a numerous purple thorns. The canes also are covered with thousands of purple thorns which glisten in the sunlight and give the bush a singularly beautiful and charming effect. It is so glossy and so brilliantly colored as to sparkle in the light. The color is a reddish yellow. The fruit is quite large, of a strange mystic flavor which many people pronounce superb, while others do not like it. This plant is a type of raspberry. It commences to fruit in June and earliest raspberries and continues until Christmas. It is a greater yielder than any raspberry known at the present day. The fruit is valuable for any purpose that a raspberry is put to. Seeds 25c per pkt.

PINE APPLE BERRY. A very hardy fruit, which grows in clusters like grapes, green in color, with the flavor of gooseberries and a fragrance like that of the pine-apple, leaves very large, flowers a beautiful white, the fruits being showy; a most wonderful honey plant, and should be cultivated by all bee-keepers: the fruit can be put to many uses; it grows in a vine or trailing form, and climbs to a height of 18 feet in trees. Price 75c each.

DWARF JUNE BERRY. A sweet, juicy fruit valuable for pies, jams, etc., 25c each.

COLORADO MAYBERRY.

The wild mayberry of Colorado, the fruit described by Coulter as "red, very large, and pleasantly flavored."

25c each.

SIERRA THIMBLE BERRY.

A fruit large, brilliant red, aromatic flavor. Will not pay to cultivate for the fruit alone, but is a grand ornamental plant, with large, heavy green leaves, and very fragrant pure white blossom, as large as a rose. 20c each.

THE STRAWBERRY GUAVA.

FEDERATION CATTLIGANUM Weih. A shrub 10 to 12 feet high, evergreen, producing a heavy crop of dark purple fruit of the size of a walnut; flower small, white and fragrant. About the size of the orange, and a very ornamental plant for the conservatory; climates too cold for the profitable growing of its delicious fruit, which may be eaten out of hand, used for preserves and cream like strawberries. It makes the finest jelly known.

$1 each; seeds, 25c per qt.

Rubus Ursinus.

PART 14.

This is a new race of berries that has just lately come into prominence. They are the wild blackberries and dewberries of the Pacific Coast. Many of the following varieties possess rare merit and in time will be widely cultivated. They are especially noted for their large size, strange mystic flavor, and great productivity. As a set of money-making fruits nothing can equal them.

LOGAN BERRY. A berry of gigantic size, of a deep, reddish maroon color; the flavor is rich, spicy, and a trifle acid; still the flavor is such that it charms all. These plants are among the earliest to come into fruit, and can be grown everywhere. The fruit ripens with the earliest raspberries. 25c each; per 10, $1.50.

SONOMA DEWBERRY. We thought for awhile that this was identical with the Lo-
Raspberry = Dewberry

Part 15.

QUEEN OF THE PACIFIC. This new and unique berry seems destined to become one of our most useful fruits. Vine is much like the Dewberry, but the fruit partakes of the character of both Raspberry and Dewberry. The berry is quite as large as the Dewberry, of a reddish-black color; it is of a most delicious flavor and texture, and the Logan Berry type, but sweeter and better in flavor and ripens earlier—begins with strawberries—and can be used for every purpose that the raspberry is put to. A rapid grower and heavy bearer; 300 good berries have been counted on a single cane 5 feet long. This new berry is strictly edible, and will bring prices on account of its early ripening season, its great beauty and delicate wild flavor. Sold by the dozen on back page. 25 cts; per 10, $2.00; per 100, $10.50.

Semi-Tropical Plants.

Part 16.

These are grown for us at Santa Barbara, Cal., and sent from there, charges prepaid.

Price 75c: each when not otherwise specified.

MUSA ENSETE Gmelin. The Abyssinian, or banana, a magnificent plant, attaining a height of 30 ft., the leaves occasionally 20 ft. long and 3 ft. wide; the inner part of the stem and the young spike can be boiled and served as an esculent, but the fruit is pulseless.

YUCCA BACCATA Torrey. California wild banana, or “Mexican bayonet;” a most beautiful and useful vine, 6 feet high, often 15 ft. high, bearing large spikes of lovely wax-like flowers richly tinged with purple. The fruit edible, but sparingly produced.

ANON A SQUAMOSA Linn. The Sugar Apple, or sweet-sop; a delicious fruit; in shape resembling an inverted pine cone; yellowish green, oval, the thick rind inclosing the juicy pulp. The acrid seeds, when reduced to a powder, are used as an insecticide. An ornamental bush. Malay Islands. Fruit scaly.

MORACEAE MILLER. Cherimoya, or Jamaica apple; fruit the size of a large apple, pale greenish yellow tinged with purple, weighing from 3 to 4 pounds each; native of Peru, where it is said to attain a weight of 16 pounds! Flesh is sweet, of the consistency of a custard, with thin skin. Trees in Santa Barbara bear yearly; will stand quite a frost; the flowers very fragrant.

CAPSICUM FRUTESCENS Linn. A shrubby species of tropical America, the berries of which are converted into cayenne pepper, and into the celebrated Tabasco Sauce.

CARISSA GRANDIFLORA A.DC. A spiny evergreen, white, fragrant flowers, and berries the size of a small plum.

ANTIGONUM LEPTOPUS Hook & Arn. Rosa de Montana, a surpassingly beautiful vine, in summer and autumn covered with a mantle of showy pink flowers.

PHYLANTHES DISTICHIUS Muel. Otaheite gooseberry; an East Indian shrub or small tree, bearing bunches of waxy white berries, sharp acid taste, excellent for pies, etc. Requires a warm climate; ripens in midsummer.

PENNISETUM RUPELLII Steud. An elegant and graceful grass, resembling a dwarf pampas grass, with beautiful inflorescences. The purple plumes. Blooms in July from seed sown in the spring, and produces its lovely plumes through the whole summer.

YUCCA FILAMENTOSA Linn. “Adam’s Needle;” produces tall spikes of snowy white, bell-shaped flowers; very beautiful, and furnishes a fiber of great strength.

CORNUS CAPITATA Wall. The Himalayan strawberry tree. Also known as Benthamia Fragilera, Lindl.

LATHYRUS SPLENDENS Kellogg. By far the most gorgeous and beautiful flowering vine in the west, producing masses of brilliant, crimson flowers.

VITIS INCISA Nuttall. Yerba del Buey (Casa incisa, Decem.) a fine tropical vine.

ERYTHRENALINA INCISA Willd. The Coral Tree; a surpassingly beautiful tree, of large size, with brilliant red flowers.

HALMIODENDRON ARGENTEUM Fisch. A pretty Autumn beauty; with pink flowers; will grow in saline or alkaline soils and stands extremes of cold and drouth.

PITHECOLOBIUM BRBVI FOLIUM Bent. The Huisillo, a beautiful evergreen tree, useful also as a forage plant.

PISTACIA VERA Linn. A deciduous Asiatic tree, sometimes 30 feet high, yielding the delicious Pistacia-nuts of commerce, remarkable for their almond-like foliage, fragrant flowers and red berries render it very ornamental.

THE KIN-KAN (Japan) or Kum-Quat (of China). “A variety of orange, the great size and shape of the fruit, but almost as thin as an apricot; the fruit a beautiful crimson, sweet and juicy; can be eaten with the fruit; the pulp is juicy, subacid, very refreshing. It recommends itself mostly for crystallizing and preserving, but is also eaten fresh from the tree. Cut into halves, it is used in Japan during summer as an ingredient for all cooling drinks which it imparts a delicious flavor. As a plant for pot culture in the Eastern climate it cannot be too highly recommended, as tender as the other oranges. A small tree laden with the golden fruit is one of the greatest ornaments to window gardens, and those who buy the well-grown plants we offer will be greatly pleased with their experiment. Pot-grown trees, $1 each."

CAANAGRE.

RUMEX HYMENOSEPHALUS Torrey. Plant one to three feet high, from a cluster
of deep-seated Dahlia-like tuberous roots. The tubers are noted for the tannin contained, and are as easily grown as potatoes. It occurs wild in China and is often the large scale offers a promising field for the investment of large capital.

QUEENSLAND NUT.

MACADAMIA TERNIFOLIA F. Muell. An Australian tree, attaining a height of 60 feet. Bears nuts of the size of a nutmeg, with very hard shell, and the flavor of the Brazil nut or of hazelnuts.

STRAWBERRY NUT TREE. A Chinese fruit, resembling huge strawberries, each enclosing a soft-shelled nut with a highly aromatic and sweet kernel. This is exported in large quantities from China.

DORYANTHES PALMERI W. Hill. Australian Torch Lily; red and white; 8 feet high; a plant of marvelous beauty.

DRACAENA DRACO Linn. The Dragon-blood tree of the Canary Islands; an imposingfeature in horticulture; a celebrated one at Orotana was estimated by Humboldt to be 6000 years old; yields the Dragon-blood resin.

FICUS ELASTICA Roxb. A large tree, with a trunk pitted, its sap copiously containing the kind called assam-rubber. The true India Rubber tree, and highly valued as an ornamental tree.

FICUS INDICA Linn. The famed Banyan tree of India: "at the age of 100 years one individual tree will shade and occupy about one and a half acres, and rest on 150 stems or more; the main stems often with a circumference of 50 feet."

EUGENIA JAMBOIS Linn. The Rose-apple, of tropical Asia; a delicious fruit, having the flavor of the apricot, about the size of a crabapple, yellowish red, and with a fragrant rose scent.

LEUCADENDRON ARGENTUM R. Br. The silver tree; greatly admired by lovers of the odd and the beautiful.

HEMACYLLA AUSTRALASICA Musell. A large spreading evergreen tree, with shining holly-like foliage, and red fruits.

EUCALYPTUS CITRIODORA Hooker. Lemon-scented gum tree.

EUCALYPTUS GLOBULUS Labill. Blue gum.

EUCALYPTUS GUNNII Hook. Swamp gum tree, one of the hardiest species known.

EUCALYPTUS HAEMASTOMA Sm. White gum.

EUCALYPTUS LEUCOXYLON F. Muel. Cinnamon-flowered eucalyptus.

EUCALYPTUS ROSTRATA Schlecht. Red gum.

SCHOTIA LATIFOLIA Jacq. A South African shrub, with rich, ornamental foliage, and pretty red flowers.

MAGNOLIA OBOVATA Thunb. Japan Purple Magnolia; blossoms purplish red.

EERITIA MACROPHYLLA Wall. A small Japanese tree, with very large cordate leaves, and panicles of white flowers.

KNIPHOFIA ALOIDES Moench. A showy and brilliant plant, the tall flower spike surmounted by rich, coppery colored flowers.

HOVYENIA DULCIS Thunberg. A surpassingly beautiful tree, of Himalaya, China and Japan; the edible pulpy fruit stalks an inch in diameter, sweet and pleasant; true fruit the size of a pea. Trees large and heavy; by express, $1 each.

BUSIñ-IlKAN. The five-fingered orange of Japan, a curious novelty, one of the greatest horticultural wonders. This orange tree bears a fruit the exact counterpart of a human hand, and that hand with long pointed nails! The flower of this tree, frequently with the long claw-like aspect being rendered in curious likeness. The fruit hangs on the tree like a human hand, with the ball of the thumb clearly defined. Fruits when quite young; not edible, although in Japan a good jam is prepared from it. The tree itself is the same as any other orange tree, with fine, large, glossy foliage and long thorns on the branches. As an ornamental oddity, nothing to equal this has been rendered in a generation.

CEDRUS LIBANI Barrel. Deodar Cedar, or Cedar of Lebanon.

PHYSALIS GLABRA Benth. The "Tomate oloroso" of Baja California; plant bluish color, musk scented; flowers yellow; fruit red, edible.

CAMELLIAS: Pot plants, 12 to 18 inches high, pure double white, double shell pink, or double variegated; by express (purchaser paying charges), $1 each.

DENDROCALAMUS MEMBRANACEUS Munro. A most elegant giant bamboo, likely to be hardy in the West. Offers the most promising curiosity.

JAPANESE AZALEAS: Pot plants in the following colors: Pure white, golden yellow, apricot or salmon color, and red; by express (purchaser paying charges,) at $1 each.

JAPANESE ROSE HYDRANGEA. Extremely beautiful, 35 cents each.

JAPANESE CELESTIAL BLUE HYDRANGEA. Very showy, 35 cents each.

JAPANESE WHITE HYDRANGEA. Very showy and fine, 35 cents each.

HYDRANGEA HORTENSIA Siebold. var. RUBRA. The Rosy Star, Hydrangea; double rose-colored perfect star-shaped flowers.

PRUNUS DIVARICATA Ledebo. The purple-leaf plum.

PRUNUS SIMONI Carr. The apricot plum, or Simon plum, of China; growth erect; flowers small, white; fruit large, flattened, of the size and appearance of a nectarine, brick red color, flesh yellow, with a peculiar, sweet aromatic flavor.

BAMBOOS.

MOSO-CHIKU. Attains a height of 30 ft. TAI-HO-CHIKU. Slender stems, 10 ft. high. BUNGU-SASSA. Slender, grass-like, 2 to 3 feet high.

BUNGO-AGRESTIS. Slender, variegated leaves, 4 to 5 feet.

BAMBUSA NANA Roxb. This Japanese bamboo will stand several degrees of frost, and attains a height of forty feet.

BAMBUSA viridi-glaucenscens, Carr.—See B. nana.

JAPANESE MAPLES.

ACER PALMATUM Thunb. A showy and magnificent tree, with deeply-cleft leaves, in some varieties having rich, glossy red foliage, some variegated red and white, others golden yellow, brown, green and white. Japan alone furnishes twenty-two species of maples. Many of the ornamental forms of these species are yearly increasing in favor, and for effective grouping in landscape gardening they are unrivalled.

Var. ATROPURPUREUM. Dark, satiny red foliage.

Var. A. VARIEGATUM. Variegated red, green and brown.

Var. A. DISSECTUM. Ritch brown, fern-like foliage.

Var. SANGUINEUM. Bright, blood red.

Var. VERSICOLOR. Pink, green and white.
plants, belonging to the lily family, with narrow, grass-like leaves.

D. Bigelovii Torr.—See Nolina Bigelovii.

D. GLAUCOPHYLLUM Hook. A low growing, spiny, Mexican species.

D. longifolium Zucc.—See Nolina longifolia.

THE CHOLLAS.

A former characteristic of Southern California landscapes were the thickets of cholla cactus, which still decorate some of our unclipped hillsides, and abound in the desert regions and unsettled parts of Lower California and Mexico. The cholla belongs to the same genus as the prickly pear, but differs mainly in the cylindrical, instead of flat, joints and in its non-edible fruits.

FREESIA REFRACTA ALBA.

This long name is become familiar to every lover of flowers in the civilized world. It is native of Africa and belongs to the iris family, a family which gives us a multitude of brilliant flowers which readily adapt themselves to Southern California. It will produce a wealth of fragrant bloom the first year from seed, and can easily be grown that it is within the reach of the humblest housekeeper.

PRUNUS MYROBALANA Loisel. Myrobalan plum. A general all-around stock for prunes and prunes.

PRUNUS PADUS Linn. Bird Cherry.

CALYCANTHUS FLORIDUS Linn.

CRATAEGUS CORDATA Soland. Washington Thorn.

THE LEMONADE BERRY.

PAPER SHELL POMEGRANATE.

SPANISH RUBY POMEGRANATE.

SWEET FRUITED POMEGRANATE.

THE PARTRIDGE-BREAST ALOE.

CANTON HYBRID ORANGE.

JAPANESE MEDLAR.

JAPANESE MAIDEN HAIR TREE.

JAPANESE WHITE LILAC TREE.

JAPANESE CHERRY PLUM.

JAPANESE PEACH.

JAPANESE GOULD.

JAPANESE GRAPE.

LILIES.

PART 17.

Price 15c. each when not otherwise specified:

BEHRIA TENUIFLORA Greene. Grassy leaves about a foot long; flowers tubular, borne in an umbel, the stamens much exerted, brilliant scarlet in color, reminding one somewhat of the Brevoortia Ida-Main, a Mexican bulb nearly allied to Lessera Ele-

gans.

LILIAM LEICHTLINI Hook. f. A Japanese species of neat and elegant habit; pendulous flowers, pure yellow, with crimson spots; petals recurved.

20c. each.

Var. FUJI-HIRADO. A Japanese variety with red flowers, spotted with black.

LILIAM JAPONICUM Thunb. Broad, funnel-shaped flowers, delicate pink to a rich soft rose, spotless, and very fragrant. (L. Kram- eri, of catalogues.)

LILIAM LONGIFLORUM Thunb. Snowy
white, trumpet-shaped flowers, of rare fragrance.

**LILIUM ELEGANS** Thunb. An early and very showy Japanese species, with cup-shaped flowers.

Var. **INCOMPARABILIS.** "Brilliant red, with golden shadings."

30c. each.

**LILIUM HUXOLDITII** Roezl and Leichtl. Very tall; large golden yellow blossoms, dotted with purple; a very showy and magnificent lily.

**LILIUM WASHINGTONIANUM** Kellogg. A marvelously beautiful white lily, of a waxy luster, and emitting a delightfully spicy perfume.

**LILIUM AURATUM** Lindl. The Golden Banded Lily of Japan, has very fragrant and most beautiful white flowers, with each petal wonderfully marked with a wide gold band, and spotted with maroon. This lily is very variable, scarcely any two plants being alike.

Var. **RUBRO-VITTATUM.** The gold replaced with a brownish crimson on band; the spots and blotches large and a vivid crimson, forming a splendid contrast with the white.

60c. each.

**LILIUM KRAMERII.** Very choice; a lustrous rosy red. 20c. each.

**LILIUM BATEMANNII** Wall. A robust, hardy Japanese species, named for Mrs. Bate- mann, producing umbels of 4 to 12 semi-cup-shaped flowers, of a deep apricot yellow.

**LILIUM BROWNII** Miqil. A magnificent Chinese species, 2 to 3 feet high, bearing a solitary, large, beautiful flower, tubular or bell-shaped, 10 inches long, pure white, with a purplish-brown midvein on the three outer segments.

40c. each.

**LILIUM SPECIOSUM** Thunb. This has furnished many beautiful varieties for the garden, of which only a few can here be mentioned.

Var. **RUBRUM.** Pure white, with crimson stripes.

Var. **OPAL.** "Frosted white, dotted with red."

3c. each.

Var. **MELPOMENE.** Very fine, dark red.

**LILIUM ALBUM** Pure white; fragrant.

**LILIUM CALLOSUS** Sieb. and Zucc. Brilliant red flowers; native of Japan.

**LILIUM CONCOLOR** Sibth. A Chinese species with deep crimson flowers, unsplotched within, lighter colored outside.

Var. **CORIDION.** Rich yellow, flaked with brown; erect flowering, and the finest of the Japanese members of this group.

10c. each.

**LILIUM CORDIFOLIUM** Thunb. Raceme a foot long, flowers white, marked with purple inside. A native of Northern Japan.

Var. **GIANTUM.** Grows 10 feet high.

**LILIUM PARLWINUM** Kellogg. A beautiful lily that seems to flourish in all soils and climates; a luxuriant grower and a profuse bloomer; the large, glowing yellow flowers, spotted with brown, the tips of a fiery crimson; very variable in color, however, occurring in many forms.

Var. **BORGGEI.** A surpassingly beautiful lily; lustrous, fiery red, large and drooping flowers.

**LILIUM PARRYI** Watson. A pretty and exceedingly rare lily; found in the mountains of Southern California and Arizona; named in honor of Dr. C. C. Parry; produces lovely clusters of large and very fragrant flowers, of a clear, lemon yellow, spiced with a delicious perfume. 25c. each.

**LILIUM PARVUM.** An Alpine species, small, drooping, canary yellow colored flowers, resembling a dwarfish *L. Pardalinum*.

**LILIUM COLUMBIANUM** Kellogg. Reddish orange. 20c. each.

---

**ROSES.**

**PART 18.**

ROSES delight in a rich, well drained soil; frequent cultivation helps them wonderfully. In setting out young plants, shade and water well for a few days.

By all means set out early in the fall, as they do so much better the coming season; still they can be set out in almost any month in the year, and grown successfully.

Price, small plants, 15c. each; heavy field grown plants, 25c., charges prepaid.

**STRIPE LA FRANCE.** Creamy pink, striped with carmine.

**RED LA FRANCE.** Brilliant pink, highly perfumed.

**WHITE LA FRANCE.** Pearly white, tinted with fawn.

**PINK LA FRANCE.** Silvery peach color.

**CLIMBING LA FRANCE.** Peach pink, a grand climber.

**BEAUTE INCONSTANTE.** Orange yellow and deep rose.

**MME. CAROLINE TESTOUT.** A lustrous satiny pink.

**CHAMPION OF THE WORLD.** Deep rosy pink.

**GOLDEN GATE.** Rich creamy white.

**NIPHSITOS.** Pure snow white.

**SAFRANO.** A beautiful apricot yellow, shading to orange fawn.

**MARIE GUILLOT.** Pure white, shaded yellow.

**CLOTHILDE SOUPERT.** French white, deepening to rosy red.

**SAILOR.** F.E. Fawn color, suffused with rose.

**DUCHESSE DE BRABANT.** Soft silvery blush, changing to deep rose, edged with silver.

**COQUETTE DE LYON.** Canary yellow; very fine.

**CATHERINE MERMET.** Clear shining pink, with delicate shaded amber and fawn center.

**BON SILENE.** Deep rose color, very sweet and beautiful.

**GLORIE DE DIJOU.** Fawn, tinted with salmon and rose.

**ISABELLA SPRUNT.** Sulphur yellow; very beautiful.

**MADAME HOSTE.** Delightfully perfumed; color soft, canary yellow, deepening at center to pure golden yellow; beautifully flushed with pale amber; edges and reverses of petals rich creamy white.

**MADAME LOMBARD.** Very double, beautiful shade of rosy bronze, passing to salmon and fawn, shaded with carmine buds, and reverse of petals rosy crimson.

**MARIE VON HOUTTE.** White, tinged with yellow, border of petals tipped with rose.

**METEOR.** Rich velvety crimson; very fine.

**PAPA GONTIER.** Brilliant carmine, changing to pale rose.
PERLE DES JARDINS. Best yellow tea rose; flowers of the deepest yellow; highly fragrant.

RAINBOW. Resembles Papa Contier, except that the petals are striped or blotched; of great beauty; 35 cents each, prepaid by mail.

SUNSET. Rich golden amber, shaded with dark red; very fragrant.

THE BRIDE. Pure white tea rose; very fragrant.

THE QUEEN. Color snow white, and very sweet; a most continuous bloomer.

AMERICAN BEAUTY. Deep glowing rose of delicate fragrance.

BLACK PRINCE. Almost black, velvety crimson.

GIANT DES BATAILLES. Brilliant, fiery crimson.

HER MAJESTY. The largest rose ever induced; bright pink, shaded with rosy salmon.

LOUIS VAN HOUTTE. Fiery, amaranth red; petals bordered with crimson.

MABEL MORRISON. White, faintly flushed with pink; extra.

MADAME GABRIELLE SUIZET. Color a fine satin rose inlaid with silvery rose and color heightened at the center; one of the most beautiful roses grown.

PAUL NEYRON. Dark rose; very fine.

MOSS ROSES.

AETNA MOSS. Bright crimson, shaded purple.

CAPTAIN JOHN INGRAHAM. Dark velvety purple.

HORTENSE VERNET. Rosy carmine; buds beautifully moosed.

MOUSSELNE. Pure white, sometimes shaded with rosy blush.

VISCOUNTESS PALMOUTH. Bright shining rose, back of petals bright carmine; flowers extra large.

CLIMBING ROSES.

CELINA FORESTER. Pale yellow, a very excellent rose.

CLOTH OF GOLD. Deep yellow, with sulphur edges; very beautiful.

GOLD OF OPHIR. Magnificent; bright salmon and fawn color.

LA MARQUE. White; very fine.

MARECHAL NEIL. Flowers very double, and delicately perfumed; color deep golden yellow.

RENE MARIE HENRIETTE. Clear cherry red, tea scented; strong climber.

SAN RAFAEL ROSE (Beauty of Glazonwood.) Most brilliant and charming of all climbing roses; flowers semi-double, and a beautiful blending of gold, copper and pink.

BANKSIA ROSES.

WHITE. Pure white, very double, small flowers, delicate fragrance, like a violet.

YELLOW. Clear yellow, small and very double.

BENGAL ROSES.

AGRIPPINA. Rich velvet crimson.

COUPE DE HEBE. Deep pink.

JAMES SPRUNT. Climber; crimson color.

MAGNA CHARTA. Pink, suffused with carmine.

HYBRID NOISETTE ROSES.

HYBRID NOISETTE. This rose blooms in clusters; flowers white or nearly so.

MADAME ALFRED CARRIERE. Very light flesh color, shaded with salmon.

BOURBON ROSES.

HERMOSA. Bright rose, a most constant bloomer.

SOUVENIR DE LA MALMAISON. Delicate flesh color, tinted with fawn.

PRAIRIE, OR CLIMBING ROSES.

BALTIMORE BELLE. Pale blush, variegated and carmine, rose and white.

PRAIRIE QUEEN. Clear bright pink, sometimes with a white stripe.

SEVEN SISTERS. Crimson, changing to white.

CHEROKEE. Very distinct from other roses; dark glossy foliage; single crimson flowers.

WHITE RAMBLER. Same as the Crimson Rambler Rose, but pure white, double, $2.50 each.

Cacti and Succulents.

PART 19.

We send out Cacti from a large collection in San Diego, of well established plants; 25c to $1 each, according to size and beauty.

CENTURY PLANTS.

The agaves form a beautiful class of decorative plants, tropical in aspect, and belong to the amaryllis family, though often erroneously considered as belonging to the cactus family. They are called century plants from another popular fallacy, that they require 100 years before blooming. In tropical countries they attain maturity, blossom and die, in less than twenty years usually.

AGAVE AMERICANA Linnaeus. The mescal plant of Mexico, from which a useful fibre is secured. Pulque, the national drink of Mexico, is produced mainly from this plant, and the juice is also distilled into an alcoholic beverage known by the name of mescal. Thousands of acres are devoted to its cultivation in Mexico, where it ranks with corn, wheat and beans in commercial importance. It makes rapid growth, attaining to a large size, and in the United States is largely planted for its decorative value.

Var. VARIEGATA Hort. Large, broad leaves, margined with white, the finest of many forms in cultivation.

AGAVE CORDEROYI Versch. A very beautiful Mexican species.

$1 each.

AGAVE DECIPiens. Tall growing, deep green foliage.

60c each.

FAIRY FINGER TIPS.

COTYLEDON ATTENUATA Watson. This dwarf plant is destined to attain great popularity for beds and borders. It was discovered in Lower California in 1886 by C. R. Orcutt, and first introduced into cultivation in 1894. It resembles dwarf C. Edulis, and produces panicles of pretty yellowish or rose
purple flowers that do not detract from its adaptability for borders or edging to beds. 10c. each; $1 per 100. Fine for borders.

C. CALIFORNICA Baker. A very symmetrical, small-growing species, especially valuable for bedding purposes.

C. DESMETIANA Hemsl. An exceedingly beautiful Mexican species, quite rare in collections. 6c. each.

C. EDULIS Brewer. This sometimes grows two feet across and bears a tall panicle of greenish flowers. It has become widely known under the name of "Finger Tips," from the long, slender leaves, which the Indians of California formerly used as a salad. 25c. each.

C. FARINOSA Benth. & Hook. Leaves rich vivid green, sometimes splashed with red; the clusters of brilliant red flowers, with a faint glow of yellow at the centers, are quite showy. 15c. each.

C. LANCEOLATA B. & H. A plant that does well under good treatment, producing a spike of red flowers. The lanceolate leaf leaves sometimes of a dull crimson color, but commonly green. 5c. each.

THE HEDGEHOG CACTUS.

C. LAXA Benth. & Hook. Leaves curiously twisted; flowers red, or yellowish in some forms. 10c. each.

C. LINEARIS Greene. A near ally to C. lanceolata, with greenish yellow flowers. Baja California. 30c. each.

C. NEVADENSIS Watson. Flowers yellow, tinged with red; occurs in the Yosemite valley. 25c. each.

C. ORBICULATA Linnaeus. An old-fashioned garden plant, attaining to a tropical luxuriance of growth and producing large pendulous orange-colored flowers of great permanency.

E. PULVERULENTA Baker. Large, elegant in form, the broad leaves forming a beautiful rosette and covered with a thick white powder. 30c. each; $3.00 per 100.

C. SECUNDA Baker. A showy and very symmetrical Mexican species, very useful in beds and borders; showy red flowers; of quick growth.

ECHINOPSIS ERYRIESSI ZUCC. This is less bristling in appearance than E. Mulleri, but produces lovely pure white flowers in great abundance.

STAPELIAS, OR "TOAD CACTUS." QUEEN OF THE NIGHT. THE VELVET CACTUS. CALIFORNIA FISH-HOOK CACTUS.

GLADIOLAS.

Our collection of Gladiolus bulbs is the finest in the State; later we shall offer a vast collection of Dahlia bulbs and the best varieties of Chrysanthemums.

CARNATIONS.

PART 20.

By mail, postpaid, at 15 cents each.

AMERICAN FLAG, striped crimson and white.

AURORA, fine pink, exquisite fragrance.

BUTTERCUP, yellow, with pink markings.

CRIMSON CORONET, fine pink, deeply fringed.

DAYBREAK, delicate shade of pink.

GOLDEN GATE, fine golden yellow.

LIZZIE McGOWAN, very fine, pure white.

PEACH BLOW CORONET, peach pink color.

SILVER SPRAY, white.

Evergreen Trees.

PART 21.

The Conifers of Calif. are the most beautiful on earth; they are easily transplanted and succeed admirably in all localities. We furnish small one-year trees very cheap. These are from 4 in. to 18 in. in height being quite light; they are easily shipped by mail and at the following prices:

ABIES AMABILIS (Silver Fir). 5c per 10; per 100, $.40.

ABIES MENZIESII (Menzies Spruce). $1.00 per 10; $8.50 per 100.

ABIES CONCOLOR (Black Fir). $1.00 per 10; $8.00 per 100.

ABIES GRANDIS (Great-Silver Fir). $1.00 per 10; $8.00 per 100.

ABIES WILLIAMSONIA (Silver Spruce). $1.00 per 10; $8.00 per 100.

ABIES NOBILIS (Noble Fir). 5c per 10; $1.00 per 100.

CHAMAECYPARIS LAWSONIA (Lawson's Cypress). $1.00 per 10; $8.00 per 100.

CUPRESSUS GOVENIANA (Dwarf Cypress). $2 per 10.

CLONOTHUS DIVARICATUS (Deer Brush). Blue flowers. $2 per 10; 25c. each.

CLONOTHUS THYSIFLORUS (Deer Brush). White flowers. $2 per 10; 25c. each.

CARUNS NUTTALLII (White Flowering Dogwood) 20c. each.
OREDAPHENE CALIFORNICA (Bay Tree.) 20c. each.
HETEROMELLES ARBUTIFOLIA (Holly.) 15c. each.
CASCARA SAGRADA (Coffee Plant.) 10c. each.
AZALEA OCCIDENTALIS (Rhododendron.) 25c. each.

**Wild Flower Seed.**

A mixed package well filled with 50 varieties of the best wild flowers of California for 25 cents. These seeds were collected high in the mountains, where the wild flowers grow in almost tropical luxuriance and abundance.

**Tree Seeds.**

**Part 22.**

25 cents per packet.
LIGOCEDRUS DECURRENS Torrey. The white or post cedar.

**PSEUDOTSUGA DOUGLASII Carr.**

**PSEUDOTSUGA TAXIFOLIA Britton.** The beautiful and popular Douglas Spruce (Abies Douglasii Lindl.), known in lumber markets as "Oregon pine."

**TORREYA CALIFORNICA Torr.** The California Nutmeg; a symmetrical tree, attaining a height of 100 feet.

**CHAMAECYPARIS LAWSONIANA Parlat.** Lawson Cypress (Cupressus Lawsoniana, Murr.) the Port Orford cedar of Oregon, a very handsome tree.

**CATALEA SPECIOSA Warder.** The hardy catalpa of the Mississippi States; of rapid growth, producing a very durable wood.

**ILEX QUERCIFOLIA Meerb.** American holly (Ilex opaca) a fine evergreen tree, 20 to 50 feet in height, with rigid leaves and red shrub."

CARYA ALBA Nutt. Shell-bark Hickory.

**Fruit Trees.**

**Part 23.**

Price 15 cents each, $1.250 per 100, unless otherwise specified.

Summer varieties are marked (S.), autumn varieties (A.), and winter varieties (W).

SACRAMENTO RIVER GRAPE. A wild form possessing a very marked flavor, deliciously rich and musky, large size and quite firm. Recommended for experimental planting. Rooted cuttings, 25 cents each.

NUT TREES.

30 Cents Each.

JAPANESE SWEET CHESTNUT.
JAPANESE MAMMOTH CHESTNUT.

JUGLANS NIGRA Linnaeus. The Black Walnut is a beautiful tree, now largely planted for the richly colored and valuable timber which it supplies. The nuts are oily and delicious.

JUGLANS CORDIFORMIS Maxim. A remarkable Japanese species, producing heart-shaped nuts, with large kernels, which are easily extracted entire when nuts are cracked. One of the finest flavored walnuts known.

JUGLANS SIEBOLDIANA Maxim. This species is found wild in Northern Japan and is without doubt as hard as an oak. The leaves are of an immense size, measuring 3 feet long, and of a beautiful shade of green. The nuts are produced in extreme abundance, growing in clusters of 15 or 20, much resembling the pecan, thinner shelled than the Black Walnut, the sweet kernel with the flavor of a Butternut, but less oily, and much superior.

JUGLANS REGIA Linnaeus. The English Walnut or Madeira nut. A tree of lofty growth, hardy and productive, valuable alike for its timber and its delicious nuts.

PARIENNE. A fine dessert nut.
FRANQUETTE. Very large walnut; sweet kernel.

MAYETTE. A fine commercial walnut; late bloomer.

CHABERTE. Soft shelled; late bloomer.

KAGHAZI. Late bloomer; nuts large, sweet and delicious.

GERMAN WALNUT. A very superior, large, thin-shelled variety, similar to the Kaghazi. A fine grower and a tremendous bearer, the very meaty nuts of rich, fine flavor.

PRODAPARTURIRNS. Rather dwarf growing; an excellent French walnut, commencing to bear at 3 years; nut large, soft shelled, of fine flavor.
Vegetable Seeds.
